COUNCIL MEETING AGENDA

March 28, 2017

7:00 p.m.

Council Chamber

MEETING DECORUM

Council would like to remind all people present tonight that serious issues are decided at Council meetings which affect many people's lives. Therefore, we ask that you act with the appropriate decorum that a Council Meeting deserves. Commentary and conversations by the public are distracting. Should anyone disrupt the Council Meeting in any way, the meeting will be stopped and that person's behavior will be reprimanded. *The meeting is live streamed and recorded by the City of Maple Ridge.*

Note: This Agenda is also posted on the City's Web Site at www.mapleridge.ca

The purpose of a Council meeting is to enact powers given to Council by using bylaws or resolutions. This is the final venue for debate of issues before voting on a bylaw or resolution.

QUESTION PERIOD

The purpose of the Question Period is to provide the public with an opportunity to ask questions of Council on items that are of concern to them, with the exception of Public Hearing bylaws which have not yet reached conclusion.

Council will not tolerate any derogatory remarks directed at Council or staff members.

Each person will be permitted 2 minutes to ask their question (a second opportunity is permitted if no one else is sitting in the chairs in front of the podium). Questions must be directed to the Chair of the meeting and not to individual members of Council. The total Question Period is limited to 15 minutes.

Council reserves the right to defer responding to a question in order to obtain the information required to provide a complete and accurate response.

Other opportunities are available to address Council including public hearings, delegations and community forum. The public may also make their views known to Council by writing or via email and by attending open houses, workshops and information meetings. Serving on an Advisory Committee is an excellent way to have a voice in the future of this community.

For more information on these opportunities contact:

Clerk's Department at **604-463-5221** or clerks@mapleridge.ca.

100 ***CALL TO ORDER***

200 ***AMENDMENTS TO THE AGENDA***

Item 1151 will be dealt with following Item 600 Delegations

300 ***APPROVAL OF THE AGENDA***

The agenda was approved as amended.

400 ***ADOPTION AND RECEIPT OF MINUTES***

401 Minutes of the Regular Council Meeting of February 28, 2017

R/2017-115

It was moved and seconded

That the minutes of the Regular Council Meeting of February 28, 2017 be adopted as circulated.

CARRIED

500 *PRESENTATIONS AT THE REQUEST OF COUNCIL* – Nil

600 *DELEGATIONS*

601 **Ridge Meadows Minor Hockey Association (“RMMHA”)**

- **Derek Gullmes, Vice President of Administration/ VP C Hockey**

Mr. Gullmes gave a PowerPoint presentation providing a background on the Ridge Meadows Minor Hockey Association, how the organization is run, and community involvement in the Association and registration information. He outlined the concerns of the Association pertaining to the provision of ice time, costs and lack of facilities. Mr. Gullmes put forward a suggestion on the use of a temporary floor in the Cam Neely arena.

R/2017-116

It was moved and seconded

That a staff report be provided on subsidized ice time and the impact on hours of use based on the availability of a temporary dry floor for use at the Cam Neely arena.

CARRIED

602 **Ridge Meadows Minor Lacrosse Association**

- **Kelli Semple Borkowsky, Facilities Allocator**

Ms. Semple Borkowsky advised on issues encountered by the Ridge Meadows Minor Lacrosse Association including lack of facility time, increasing expenses and concerns over turf. She expressed concern that facilities in Maple Ridge are not keeping up with the growth of participation in lacrosse and explained differences between lacrosse for boys and lacrosse for girls which creates an impact on field time. Ms. Semple Borkowsky referred to a list of immediate needs of the Lacrosse Association.

R/2017-117

It was moved and seconded

That staff obtain a list of immediate needs of the Ridge Meadows Minor Lacrosse Association and provide a report outlining items which can be dealt with on an immediate basis.

CARRIED

603 **Concerned Citizens over the Proposed 250 Street Commercial Chicken Farm**

- **Wanda Merriman**

Ms. Merriman acknowledged that the commercial chicken farm proposed for 250 Street would currently not go ahead. She expressed that it was important to the neighbouring residents that ongoing concerns be expressed and outlined concerns with the proposed facility and the negative impact of a commercial chicken farm on a neighbourhood. She submitted a petition against the proposed 250 Street commercial chicken farm which was distributed to Council.

(Link to petition. A hard copy can be provided by the Clerk's Department upon request)

The Mayor responded that municipal councils have little authority over agricultural lands as those are regulated under provincial legislation. One small way municipalities can have an impact is through setbacks, however a municipality cannot ban a farm use on land within the Agricultural Land Reserve.

801 **Potential Change to Format of Council Meeting Schedule**

Staff report dated March 14, 2017 providing information on potential changes to the format of the Council Meeting schedule.

The Manager of Legislative Services reviewed the staff report.

802 **Motion by Councillor Shymkiw**

Motion resolving to change the current format of the Council Meeting Schedule

Councillor Shymkiw advised on the reasons for his motion. He indicated that he is interested in the change to the current meeting format on a trial basis

R/2017-119

It was moved and seconded

Whereas the Maple Ridge Council Procedure Bylaw No. 6472-2007 and amendments thereto allows for Council to create Council Workshop meetings to conduct Workshop business;

And whereas there is no requirement to have such meeting under this bylaw;

Therefore be it resolved that,

Beginning April 1, 2017 meetings of Council Workshop schedule three Monday mornings each month cease for a five month trial period, and all business normally conducted at Council Workshop be transferred to a Committee of the Whole meeting where reports and other city business will be considered and discussed but no resolutions or motions leading to decisions will be made except to forward agenda items to Council or refer back to staff/committees; and

Two Committee of the Whole meetings (including workshop type sessions) be scheduled each month on Tuesday evenings alternating with Regular Council meetings also scheduled for two Tuesday evenings each month, and that Public Hearings be scheduled prior to the third Tuesday Committee of the Whole Meeting; and

The applicable advertisements to the change in the Council Meeting Schedule be advertised as required.

R/2017-120

It was moved and seconded

That the motion resolving to change the current format of the Council Meeting Schedule be deferred to the next available Workshop.

CARRIED

Staff report dated February 20, 2017 recommending that a letter be submitted to the Passenger Transportation Board summarizing comments in the staff report and indicating that the City of Maple Ridge does not support the application by Ripe TX for new taxi licenses to operate in the Greater Vancouver Regional District.

The Manager of Bylaws and Licences advised on follow up done with Ripe TX. She also advised that questions put forward to the company by the Bylaws Department had not as of March 14, 2017 been answered by the company.

R/2017-121

It was moved and seconded

That staff be directed to submit a letter to the Passenger Transportation Board summarizing the comments in the report titled “Ripe TX – Taxi License Application” dated February 20, 2017 indicating that the City does not support the application by Ripe TX for 150 new taxi licenses to operate in the Greater Vancouver Regional District.

It was moved and seconded

That the motion be amended to remove the text “not”

Note: The proposed amendment to the main motion was withdrawn, and the main motion was withdrawn.

R/2017-122

It was moved and seconded

That a request for an extension of two weeks for provision of comments pertaining to a taxi license application by Ripe TX be forwarded to the Passenger Transportation Board, that Ripe TX be requested to provide a response to questions put forward by the Manager of Bylaws and Licences within a two week time period, and further that Item 803 Ripe TX – Taxi License Application be deferred to the March 28, 2017 Council Meeting, but if no extension is granted by the Passenger Transportation Board then the original motion for not supporting the application be submitted.

Councillor C. Bell

Mayor Read called the meeting to order. The Manager of Legislative Services explained the procedure and rules of order of the Public Hearing and advised that the bylaws will be considered further at the next Council Meeting on March 28, 2017.

The Mayor then called upon the Manager of Development and Environmental Services to present the following items on the agenda:

**1a) 2016-175-RZ
Maple Ridge Official Community Plan Amending Bylaw No. 7305-2016**

Legal: Lot 23, Section 28, Township 12, New Westminster District,
Plan 48925

Location: 23711 132 Avenue

Purpose: Schedule "A", Chapter 10.3, Part VI, A – Silver Valley, Figure 2 -
Land Use Plan, and Figure 3C - River Hamlet, are hereby
amended as shown on Map No.937

From: Conservation

To: Low Density Urban

And: Schedule "A", Chapter 10.3, Part VI, A – Silver Valley, Figure 4 – Trails/Open Space is hereby amended as shown on Map No. 938 to remove from conservation.

**1b) 2016-175–RZ
Maple Ridge Zone Amending Bylaw No. 7258-2016**

Legal: Lot 23, Section 28, Township 12, New Westminster District, Plan 48925

Location: 23711 132 Avenue

From: RS-2 (One Family Suburban Residential) and RS-3 (One Family Rural Residential)

To: RS-1b (One Family (Medium Density) Urban Residential)

Purpose: To rezone to RS-1b, as above. The current application is to permit future subdivision into three single family residential lots, and one remainder lot.

The Manager of Legislative Services advised that correspondence was received from Iain Kirk requesting that it be ensured that trees on the property remain viable and maintained and from Sheila Renaud/Serginson expressing opposition to the application due to the proposed removal of conservation area.

The Manager of Development and Environmental Services gave a power point presentation providing the following information:

- Application Information
- Subject Map
- Official Community Plan Context
- Neighbourhood Plan Context
- Site Characteristics
- Development Proposal
- Proposed Site Plan
- Proposed Townhouse location (under separate application)
- Terms and Conditions

The Mayor called for speakers three times.

There being no comment, the Mayor declared this item dealt with.

2) **2016-034-RZ**
Maple Ridge Zone Amending Bylaw No. 7247-2016

Legal:	Lot "B", District Lot 245, Group 1, New Westminster District, Plan 74894
Location:	12358 216 Street
From:	RS-1 (One Family urban Residential)
To:	RS-1b (One Family (Medium Density) Urban Residential)
Purpose:	To Rezone to RS-1b, as above. The current application is to permit a future subdivision of approximately two lots.

The Manager of Legislative Services advised that no correspondence was received on this item.

The Manager of Development and Environmental Services gave a power point presentation providing the following information:

- Application Information
- Subject Map
- Official Community Plan Context
- Neighbourhood Plan Context
- Site Characteristics
- Proposed Site Plan
- Development Proposal
- Terms and Conditions

Mayor Read called for speakers for the first time.

Kristin Krimmel

Ms. Krimmel is not opposed to the application. She expressed concern that heritage homes such as the existing house on the property are being destroyed and suggested that the City of Maple Ridge endeavour to preserve and protect such buildings by perhaps moving them to a designated single location and allowing them to be used for other purposes such as arts and culture. She urged Council to require that the house on the property be moved and preserved as a heritage building.

The Mayor called for speakers for the second and third time.

There being no further comment, the Mayor declared this item dealt with.

3) **2015-345-RZ**
Maple Ridge Zone Amending Bylaw No. 7205-2016

Legal:	Lot 32, Section 20, Township 12, New Westminster District, Plan 24720
Location:	12106 230 Street
From:	RS-1 (One Family Urban Residential) & RS-3 (One Family Rural Residential)
To:	R-1 (Residential District)
Purpose:	To Rezone to R-1, as above. The current application is to permit a future subdivision of approximately 2 lots.

The Manager of Legislative Services advised that correspondence was received from Jessie and Allen Lees expressing concern with tree removal on the property.

The Manager of Development and Environmental Services gave a power point presentation providing the following information:

- Application Information
- Subject Map
- Official Community Plan Context
- Neighbourhood Plan Context
- Site Characteristics
- Development Proposal
- Proposed Site Plan
- Terms and Conditions

The Mayor called for speakers three times.

There being no comment, the Mayor declared this item dealt with.

**4) 2016-009-RZ
Maple Ridge Zone Amending Bylaw No. 7220-2016**

Legal:	Parcel "2", (J43410E) of Parcel "A" (Explanatory Plan 1734) of the South East Quarter, Section 21, Township 12, Except Firstly: Parcel "One" (Explanatory Plan 17000); Secondly: Part Subdivided by Plan LMP36965; New Westminster District
Location:	23729 Dewdney Trunk Road
From:	RS-3 (One Family Rural Residential)
To:	RM-1 (Townhouse Residential)
Purpose:	To Rezone to RM-1, as above. The current application is to permit the future construction of a 41 unit multi-family development.

The Manager of Legislative Services advised that correspondence expressing concerns with the application was received from Jody and Cale Nairn and from Ana and Jose Faria.

The Manager of Development and Environmental Services gave a power point presentation providing the following information:

- Application Information
- Subject Map
- Official Community Plan Context
- Neighbourhood Plan Context
- Site Characteristics
- Development Proposal
- Proposed Site Plan
- Proposed Elevations
- Landscape Plan
- Terms and Conditions

The Mayor called for speakers for the first time.

Jose Faria

Mr. Faria identified himself as a resident of 120B Avenue. He expressed concern with the impact of the proposed development on the surrounding neighbourhood particularly on parking on the street and an increase in traffic. He stated that parking is already negatively impacted by other townhouse complexes in the area and that traffic, particularly from the private school, uses 120B Avenue as a shortcut thus creating safety issues. He requested clarification on the parking proposed for the development.

The Manager of Development and Environmental Services provided further information on the amount of parking proposed within the development.

The Mayor called for speakers for the second and third time.

There being no further comment, the Mayor declared this item dealt with.

Having given all those persons whose interests were deemed affected by the matters contained herein a chance to be heard, the Mayor terminated the Public Hearing at 7:27 p.m.

R/17-010

It was moved and seconded

That the proposal be re-submitted and presented at a future Advisory Design Panel meeting with the following concerns addressed:

- 1. Consider reducing the length of stalls 6 and 7 to allow for a tree between both stalls. Architect to consult with City for variance.**
- 2. Provide interlocking pavers at all parking stalls. To a minimum from stalls 1 to 5 and access route to entrance.**
- 3. Provide pavers at Main and South - West Entrances.**
- 4. Consider deleting the "eyebrow" extension of roofline over stone at East Elevation.**
- 5. Provide a variation of brick pattern and color at the exterior face of the south firewall.**
- 6. Exit door at NW entrance appears to be in conflict with double door from main floor. Architect to consider repositioning exit door or resize double doors to single door 3'-6" to main floor.**
- 7. Excessive heat gain from the East and West sides of the building. Architect to investigate interior louvre systems to mitigate the issue.**
- 8. Consider operable windows at locations within the glazing system.**

FROM: Chief Administrative Officer
SUBJECT: Disbursements for the month ended February 28, 2017

MEETING DATE: March 20, 2017
MEETING: Committee of the Whole

EXECUTIVE SUMMARY:

The disbursements summary for the past period is attached for information. All voucher payments are approved by the Mayor or Acting Mayor and a Finance Manager. Council authorizes the disbursements listing through Council resolution. Expenditure details are available by request through the Finance Department.

RECOMMENDATION:

That the disbursements as listed below for the month ended February 28, 2017 be received for information only.

GENERAL	\$ 9,290,585
PAYROLL	\$ 1,698,172
PURCHASE CARD	\$ <u>91,628</u>
	<u>\$11,080,385</u>

DISCUSSION:

a) Background Context:

The adoption of the Five Year Consolidated Financial Plan has appropriated funds and provided authorization for expenditures to deliver municipal services.

The disbursements are for expenditures that are provided in the financial plan.

b) Community Communications:

The citizens of Maple Ridge are informed on a routine monthly basis of financial disbursements.

c) Business Plan / Financial Implications:

Highlights of larger items included in Financial Plan or Council Resolution

• BC Hydro – electricity	\$	151,046
• G.V. Water District – water consumption Nov 2 to Nov 29/16	\$	431,946
• Guild Yule & Company In Trust – settlement of claim	\$	230,000
• NWallace & Company – storage building & shed construction	\$	225,076
• RCMP Receiver General – contract Oct 1 – Dec 31/16	\$	4,452,128
• Ridge Meadows Recycling Society – monthly contract for recycling	\$	203,709
• Timbro Contracting – Silver Valley reservoir–Rock Ridge reservoir	\$	279,819

d) Policy Implications:

Corporate governance practice includes reporting the disbursements to Council monthly.

CONCLUSIONS:

The disbursements for the month ended February 28, 2017 have been reviewed and are in order.

City of Maple Ridge

TO: Her Worship Mayor Nicole Read
and Members of Council
FROM: Chief Administrative Officer
SUBJECT: Ripe TX – Taxi License Application

MEETING DATE: February 20, 2017
FILE NO: 01-05330-01
MEETING: C.O.W.

EXECUTIVE SUMMARY:

On January 30, 2017 a notice was received from Ripe TX (Ripe Holdings Inc.) advising the City that they are applying to the Passenger Transportation Board (PTB) for 150 new taxi licenses to operate (pick up and drop off) anywhere in the Greater Vancouver Regional District (Appendix A). Their service model is to digitally dispatch taxis and advise that there would be no top lights, flagging or taxi stands. The PTB requires that applicants notify municipalities of their application and a municipal council may submit information or comments to the PTB regarding the application. It is recommended that municipalities submit comments within 30 days of receiving the package.

Staff have outlined in this report their comments, questions, concerns.

RECOMMENDATION(S):

That staff be directed to submit a letter to the Passenger Transportation Board summarizing the comments in this report indicating that the City does not support the application by Ripe TX for 150 new taxi licenses to operate in the Greater Vancouver Regional District.

DISCUSSION:

The Passenger Transportation Board regulates the issuance of taxi licenses. They provide an opportunity for municipalities to comment on new applications and will take these comments into consideration in decision making.

Upon receiving the Ripe TX application, Bylaws and the RCMP were contacted for input.

The following are staff comments, concerns;

Ripe TX have applied for 150 licences and they are planning to operate in the west from West Vancouver to Maple Ridge in the east. There is nothing in the application that states how many vehicles will be available in Maple Ridge, and they do mention that they will park these vehicles throughout the Greater Vancouver Regional District where they anticipate demand. In the section of the application which is addressed to us, they have not filled out how many vehicles they want to operate specifically in our municipality.

Ripe TX has a main office in Victoria. This is not a dispatch office but rather a customer service centre and administration office. All requests for taxi service would be made through a web site or

app. As they will not be having a dispatch office, but only working through an app, it may be difficult to determine response times.

Staff have concerns with who exactly will own each of the 150 vehicles and be responsible for the ongoing upkeep and maintenance, although there is mention of lease rates for drivers on page 6 of 7 of the document titled "Ripe Holdings Inc. Accessible Service Plan – Company Information". Maple Ridge Taxi Bylaw No. 6409-2006 states that an inspector can give notice to the owner that a vehicle for hire is not in a fit or proper condition for use and such vehicle may not be used until the condition is remedied. Currently regular inspections are conducted of all vehicles for hire used in Maple Ridge to determine their condition. This could prove problematic with the vehicles being located all over the Greater Vancouver Regional District. The bylaw also states that there must be an illuminated sign bearing the word "cab" or "taxi" on each vehicle. This company's proposal would be in violation of that section of the bylaw if no such illuminated sign existed.

In addition, each driver must have a chauffeurs permit to operate in Maple Ridge so the question is, will all 150 drivers actually operate in Maple Ridge at any given time or just some of the drivers. In the application driver training is addressed.

It would have been prudent for the company to provide a more thorough report on how they plan on doing business in such a large geographic area. It would be preferable for Ripe TX to provide more information about how they operate. Specifically, staff would appreciate knowing:

- Are drivers on regular schedules with on-duty/off-duty times and how is this tracked?
- How does Ripe TX track driver activity in the leased vehicles (on and off duty)?
- Are they tracking driver routes from the time they are dispatched to when the meter is concluded?
- Are they tracking driver routes when the drivers are not on a dispatched call but still mobile and on duty?
- How does Ripe TX monitor fares – what is recorded, what is collected, how does this match or not match the meter, how do they determine if fares are being collected unmetered and unreported?

All of these questions are at this time not addressed in the application.

Alternatives:

Council may opt to not provide a response in relation to the Ripe TX application for taxi licenses.

CONCLUSIONS:

Staff from Bylaws and the RCMP have provided comments and concerns above. Staff does not support this application without further information and assurances being provided as noted herein. Should Council have further comments or concerns, it would be advisable to have these concerns included in any response to the application.

Attention: City Clerk

Our company, Ripe Holdings Inc. (license no. 72137), is applying to the Passenger Transportation Board (PTB) for 150 new taxi licenses that will be able to pickup and drop-off from anywhere in the Greater Vancouver Regional District. These taxis will all be digitally dispatched, meaning no top lights, flagging, or use of taxi stands.

Included with this letter are our completed forms that were submitted to the PTB.

RIPE HOLDINGS INC. ACCESSIBLE SERVICE PLAN

COMPANY INFORMATION

Ripe Holdings Inc. dba Ripe Rides is looking to introduce a new form of taxi passenger transportation in British Columbia, Ripe TX. Our service will be fully dispatched digitally through our smartphone application for iOS and Android. This means no top lights, flagging, or cash-for-hire transactions. Our intention is to be the first taxi company to service the entire Greater Vancouver Regional District and eliminate existing jurisdictional boundaries to address common passenger complaints/concerns about going to and from the suburbs to downtown Vancouver.

1. VEHICLES

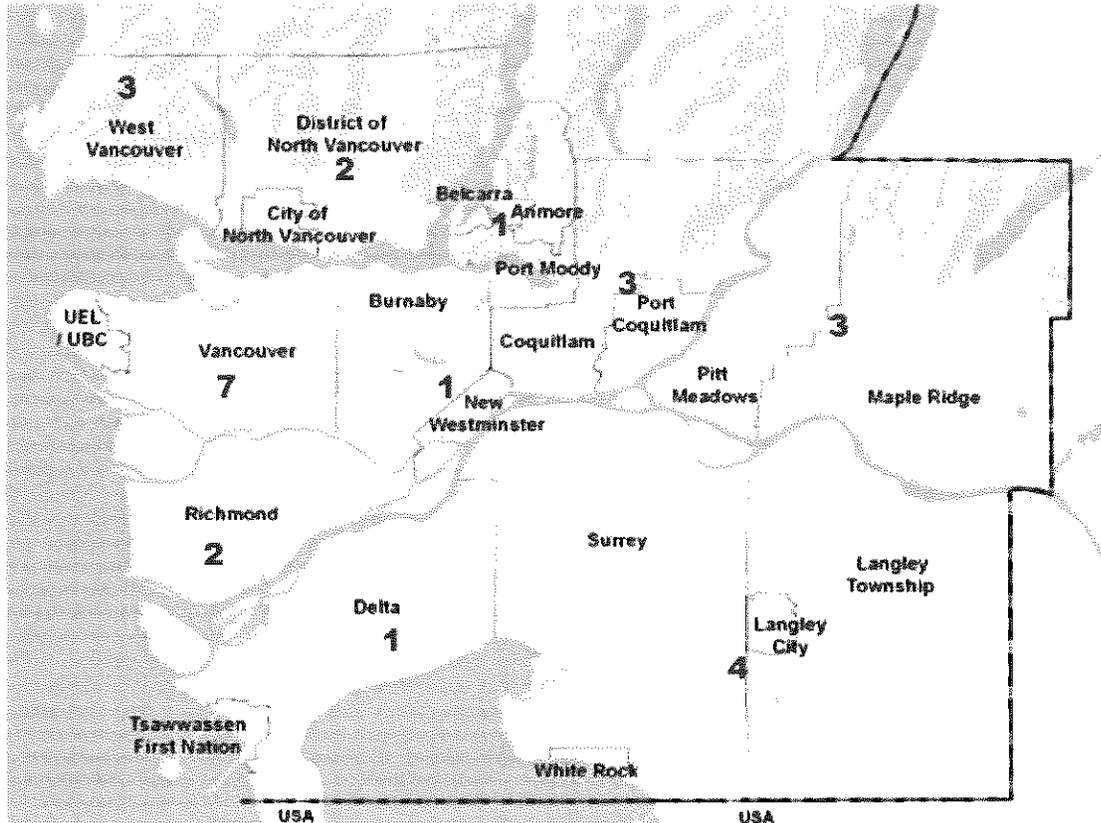

Our application is for 150 licenses. Of the 150 licenses, 27 will be accessible taxis accounting for 18% of the total fleet. All of our accessible taxis will have flip seats. We will be purchasing on lease hybrid energy efficient vehicles for our fleet. The wheelchair accessible vehicles (WATs) will be newer (2015 or above) minivans, most likely Toyota Siennas or Honda Odysseys.

2. VEHICLE USAGE

We intend our wheelchair accessible vehicles to be used in equal proportion to our regular vehicles.

The distribution plan at the beginning of our operations will be to have the vehicles spread strategically across the region with the distribution proportionate to the density of the area. Below is a map that demonstrates the approximate number of WATs per area. Within each of these cities and municipalities we will place the cars strategically based off of population data – for example, in Surrey/White Rock we will have more of the WATs near typical retirement communities to anticipate their need for accessible vehicles.

Our app and technology will allow us to dynamically capture real-time information to be able to serve the region better, meaning on an ongoing basis we will be optimizing our fleet distribution to ensure each municipality's needs are met based on demand.

When a customer opens the Ripe TX app, they have a few options for requesting a vehicle. If a customer simply puts in their pickup and drop-off locations, their request will go to the closest available vehicle, which could be a regular four-seater or a wheelchair accessible vehicle. A customer could also select a specific driver based on their aggregated ratings or based off personal preferences, again which could result in either a four-seater or WAT vehicle. These requests will be placed in the order they are received on a 'first-come, first served' basis.

A customer could also further filter their requests, which will cause the 'matching' algorithm to prioritize. The most relevant distinction for our accessible service plan will be requests for vehicles that can accommodate more than 6 passengers and those who specifically need a WAT. If a customer selects they need a vehicle that can transport 6 or more passengers, then only WATs will display on the map. They will then be placed in the queue for one of these vehicles. Similarly, if a customer specifies they need a WAT, then only those vehicles will appear on the map. Once the request is inputted, it will automatically go above all other ride requests to the closest available WAT.

3. HOURS OF SERVICE

We plan to have all of our wheelchair accessible taxis to be available as close to 24/7 as possible. These will be the same hours of service as our regular vehicles.

Within the first 6 months of obtaining our licenses, we will have at least 75 total vehicles on the road operating, with 14 of those being wheelchair accessible. On a daily basis this number may be bigger depending on special events and customer demand.

4. TRAINING

Drivers, Driver Support, Day and Night Driver Managers, and Logistics Managers will all receive training for serving passengers with disabilities and wheelchair accessible taxis specifically. This is to ensure at multiple levels of the organization we can meet the needs of customers who need accessible taxis.

All drivers will be required to complete the TaxiHost Pro program offered by the Justice Institute of BC, as stipulated by the PTB. As a part of the TaxiHost program, drivers go through the WorldHost and Serving Customers with Disabilities course. This course goes through (in a classroom-setting), amongst other things, serving customers with disabilities. It also reviews appropriate language for discussing the eight major disabilities (mobility, vision, hearing, etc)ⁱ.

In addition to the TaxiHost program, drivers will be required to go through hands on training for operating the actual equipment used in WATs. This includes how to tie down a wheelchair, using the loading ramp, and more. We are currently in the progress of setting up such a program with various organizations in the Lower Mainland who service those with disabilities. We hope to set up a program similar to the 'Ask-Listen-Act' program run by the Vancouver Taxi Associationⁱⁱ. The General Manager and the Day and Night Managers will also be required to go through TaxiHost Pro as well as the hands on training to ensure they can train other staff members.

Other staff members will also be required to go through training for serving those with accessibility needs. For the majority of staff, training will be conducted by the General Manager. For Logistics Managers, the General Manager will do live demonstrations with the vehicle as well as provide the owners' manuals so that these staff members can communicate to drivers and customers when needed. For the drivers (including Driver Managers and Driver Support staff), the General Manager will follow the same procedures, but will also add in a couple of test scenarios to ensure the drivers are comfortable operating the additional features of a wheelchair accessible vehicle.

Any drivers that are driving a wheelchair accessible taxi are required to go through live scenarios with the General Manager before they go on shift.

PRIORITY DISPATCH PLAN

1. DISPATCH SYSTEM

Our wheelchair accessible taxis will be dispatched using the same system as our regular vehicles. The primary method is through our app, where customers can input their pickup and drop-off locations to request a vehicle. A customer can also select a specific driver by tapping on them first. Additionally, a customer can first filter the vehicle options by selecting 'Accessible' or a 6+ vehicle, and then inputting

their location information. There is also a 'Pooling' feature whereby customers input their pickup and drop-off locations as well as approximate trip start time, and the app automatically matches them with other customers travelling along a similar route and time window.

For the visually impaired, our app can work in conjunction with other reading applications or software to direct the customer what to press.

In addition to our smartphone app, customers can order a taxi by logging on to our website. The process is very similar to the app where a customer can filter available cars to specifically select an accessible taxi.

Thirdly, we will have customer service representatives / office workers at the Ripe office who can assist with teaching customers how to book using the app. These customer service employees are not acting as dispatchers; they are simply acting as educators and assisting with operating the app similar to how Ripe Rides' office staff currently operates.

During everyday operations, our WATs will be available on the general map for anyone to book. If a customer inputs their pickup and drop-off locations without any vehicle preferences and a WAT is the closest one available, then that vehicle will be dispatched automatically through the app. If a customer inputs they would like an accessible vehicle, then this supersedes any other requests and puts that customer at the top of the ride queue.

Customers also have the option to request a vehicle that accommodates more than 6 passengers, including for pooling services. If a customer requests an accessible vehicle, which are also the same as 6+ vehicles, then this accessible request will override the 'regular' 6+ request in the app.

If there are multiple requests for WATs, they will be digitally dispatched on a first-come, first served basis above the regular taxi requests. We will also implement a few checks and balances on the technology side to ensure there are WATs available as much as possible. Primarily this will be done by ensuring at least 30% of our WATs are available for accessibility needs at all times. This means that if there are only 9 active WATs available, a customer would only be able to book them if they specifically request an accessible vehicle. Therefore, if there are only 9 WATs available at a given time, a customer would not be able to book one of them as a regular taxi even if it is the closest available vehicle to their pickup location. Instead in that scenario the customer's request would be sent to the next closest 4-seater vehicle. The moment the number of WATs available goes back to 10 or more, they would be repopulated to the main TX map and be able to be booked by anyone (with priority still to accessible requests).

A customer's GPS location or inputted pickup location is used to determine where to dispatch wheelchair accessible taxis. If a customer inputs their current location or a specific location in the app, this information is automatically relayed to the driver's app. The same occurs if a customer requests a vehicle via our website. Regardless of if a customer is requesting a regular vehicle or a WAT, the app will always calculate the closest available vehicle to their pickup location. Then once a trip request is actually sent through, the app tracks the driver in real-time as they make their way towards the customer. This adds another level of assurance and transparency for customers that is not currently available in the taxi

marketplace. With this feature, customers know 100% once they've ordered a Ripe TX vehicle, it is coming for them specifically.

If a customer requests a larger vehicle, whether for a large group of customers or just due to preference, then this is noted in the app by the options 6-6+. This is recorded differently in our system than an accessible vehicle even though for practicality purposes they are the same vehicle type.

If there are requests for a wheelchair accessible taxi and none are available, the customer will automatically receive a popup in their app informing them. The customer could then try ordering a vehicle at a later time. Our system automatically records requests that aren't met due to lack of available cars, and management as well as dispatch can rearrange driver schedules to meet this demand in the future.

2. DISPATCHERS

Our policies and procedures for wheelchair accessible taxis are the same as for our regular vehicles; our company does not discriminate on any basis.

Our system is automatically built to prioritize any accessible vehicle requests made through the app or website. The technology is built so that any time someone inputs they would like an accessible vehicle, their request automatically goes to the top of the queue for the closest available driver. Our Logistics Managers are trained as well to analyze and create reports based on trip data, which includes accessible vehicle requests. This way they can plan and anticipate what times of day may need more accessible vehicles on shift, which areas might need more accessible vehicles than others, and etcetera.

Our customer service / office staff are trained to prioritize accessible vehicle requests as well. Similar to app and website requests, as soon as customer service staff receives a call for an accessible vehicle, they prioritize this over other customer requests and assist the customer with ordering the vehicle through the Ripe TX app.

Ultimately what makes our application distinct from current providers in the region is that all dispatch is done through the app. The technology will be built to ensure accessible vehicle requests are prioritized, minimizing human error and/or discrimination.

If Logistics managers or other staff are found to be disregarding our policies on service to all customers, it will be cause for termination.

3. DRIVERS

Our policies and procedures for wheelchair accessible taxis are very similar to our regular vehicles; drivers are not to discriminate on any basis.

Drivers of accessible vehicles are required to go through live scenarios with the General Manager before they go on shift, as mentioned above. Once on shift, an accessible taxi driver will automatically appear on our system as such. If all customer requests have no filtering, these vehicles will be placed regularly

on the queue, which is by time/distance in relation to the customer's pickup location. If a customer filters the vehicles for wheelchair accessible, then these drivers will automatically be first to receive this request.

Drivers who operate WATs will be offered a lower lease rate and higher commission rate on trip revenues than drivers who operate regular vehicles. This will be offered not only to incentivize drivers, but also to combat the higher vehicle operational costs associated with WATs.

If drivers are found to be disregarding our policies on service to all customers, it will be cause for termination.

4. VEHICLE LOCATIONS & CONTRACTS

All of our vehicles are spread across the GVRD strategically with the distribution proportionate to the density of the area in the beginning of our operations. Once real-time trip data is available, we can serve the region better, meaning we will be optimizing our fleet distribution on an ongoing basis to meet demand. Our wheelchair accessible vehicles will be similarly distributed; first based off of population density and then based off of real-time trip requests.

In many of the areas where our wheelchair accessible taxis are located, they will be parked near the end of transportation lines. Examples include at YVR airport, near the end of the Expo Line in Surrey, Lougheed Station, and Waterfront Station. Customers still have to order these vehicles through the app; they wouldn't be able to just hop in from a taxi stand or from the street. We would have our vehicles parked in these areas to anticipate demand, as it is more likely customers who need accessible vehicles would also be taking transit services.

COMMUNITY INFORMATION

1. LOCAL OPTIONS FOR WHEELCHAIR ACCESSIBLE SERVICES

As we will be serving the entire GVRD, there are many wheelchair accessible services available including TransLink, handyDART, and more.

2. COMMUNITY OUTREACH

We will do our best to meet with each municipality in the GVRD to communicate the introduction of our service which includes wheelchair accessible vehicles. We are in regular contact already with many local committees and government counselors.

Additionally, we are in the process of reaching out to various care facilities to educate and inform about our proposed service. This will help to reach those who will be using WATs on a regular basis and to go over the app functionality. We also intend to start setting up some pre-arranged trips with these groups once we are in service, especially for frequently occurring events. For example, if a care facility does a

biweekly outing to grocery shop, we could arrange these trips in advance and distribute our fleet accordingly.

SUBJECT: Final Reading
Official Community Plan Amending Bylaw No. 7040-2013
Zone Amending Bylaw No. 7041-2013
24152 112 Avenue

EXECUTIVE SUMMARY:

The applicant has requested that final reading be granted for the subject property, located at 24152 112 Avenue (see Appendix A). Official Community Plan Amending Bylaw No. 7040-2013 (see Appendix B) and Zone Amending Bylaw No. 7041-2013 (see Appendix C) have been considered by Council and at Public Hearing and subsequently were granted third reading. The purpose of the rezoning application is to rezone to the RS-1b (One Family Urban (Medium Density) Residential) and P-1 (Park and School) zones to allow for future subdivision into approximately 25 lots and a neighbourhood park (see Appendix D).

The applicant intends to choose the Density Bonus option within the RS-1b (One Family Urban (Medium Density) Residential) zone, which is specific to the Albion Area, enabling single-family lot sizes of a minimum of 371 m². The required amenity fee of \$3,100.00 for each lot less than 557 m² will be collected by the Approving Officer at the subdivision approval stage.

Council considered rezoning application 2012-013-RZ and granted first reading for Zone Amending Bylaw No.7041-2013 on January 14, 2014. Council granted first and second reading for Official Community Plan Amending Bylaw No.7040-2013, and second reading for Zone Amending Bylaw No. 7041-2013 on November 24, 2015. This application was presented at Public Hearing and Council granted third reading on December 8, 2015. Based on the amended Development Procedures, third reading is valid until June 6, 2017.

RECOMMENDATION:

That Official Community Plan Amending Bylaw No. 7040-2013 be adopted; and

That Zone Amending Bylaw No. 7041-2013 be adopted.

DISCUSSION:

a) Background Context:

Council considered this rezoning application at a Public Hearing held on December 8, 2015. On December 8, 2015 Council granted third reading to Official Community Plan Amending Bylaw No. 7040-2013 and Zone Amending Bylaw No. 7041-2013 with the stipulation that the following conditions be addressed:

- i) Registration of a Rezoning Servicing Agreement as a Restrictive Covenant and receipt of the deposit of a security, as outlined in the Agreement;
- ii) Amendment to Official Community Plan Schedule "A", Chapter 10.2 Albion Area Plan, Schedule 1: Albion Area Plan and Schedule "C";
- iii) Road dedication on 112 Avenue, as required;
- iv) Park dedication as required, including construction of multi-purpose trails;
- v) A letter assuring that removal of all debris and garbage from park land has occurred;
- vi) Registration of a Restrictive Covenant for the geotechnical report which addresses the suitability of the subject property for the proposed development;
- vii) Registration of a Restrictive Covenant for Stormwater Management;
- viii) Removal of existing buildings;
- ix) In addition to the Site Profile, a disclosure statement must be submitted by a Professional Engineer advising whether there is any evidence of underground fuel storage tanks on the subject property. If so, a Stage 1 Site Investigation Report is required to ensure that the subject property is not a contaminated site; and
- x) That a voluntary Community Amenity Contribution (CAC) be provided in keeping with the direction given by Council with regard to amenities.

The following applies to the above:

- i) The Rezoning Servicing Agreement and security deposit of a security, as outlined in the Agreement have been received;
- ii) Amendment to Official Community Plan Schedule "A", Chapter 10.2 Albion Area Plan, Schedule 1: Albion Area Plan and Schedule "C" will be amended with final approval of these bylaws;
- iii) Road dedication on 112 Avenue has been provided;
- iv) Park dedication including security for the construction of the multi-purpose trail has been received;
- v) A letter assuring that removal of all debris and garbage from park land has occurred has been provided;
- vi) A Restrictive Covenant for the geotechnical report which addresses the suitability of the subject property for the proposed development has been received;
- vii) A Restrictive Covenant for Stormwater Management has been received;
- viii) The existing buildings have been removed;

- ix) A disclosure statement by a Professional Engineer advising whether there is any evidence of underground fuel storage tanks on the subject property has been provided; and
- x) The voluntary Community Amenity Contribution (CAC) in the amount of \$127,500.00 (25 lots at a rate of \$5,100.00 per lot) has been provided, in keeping with Council Policy on Community Amenity Contributions.

CONCLUSION:

As the applicant has met Council's conditions, it is recommended that final reading be given to Official Community Plan Amending Bylaw No. 7040-2013 and Zone Amending Bylaw No. 7041-2013.

BYLAW NO. 7278-2016

SCHEDULE "B"

Class of Work:

The establishment, maintenance and replacement of enhanced road bioswales and two rain gardens indicated by bold outline on Schedule "A" are to be maintained as per the attached recommended procedures and frequencies.

Annual Charge:

The Annual Charge is based on a per lot basis for each of the 21 lots created by the subdivision of:

Lot 2 Section 29 Township 12 New Westminster District Plan 5116 Except Plans BCP42569 and BCP48907

of \$134.29 starting in 2020.

The charges established under this Bylaw shall be specifically charged against the parcels benefitting from the work, payable by a per lot basis levied year by year.

The Annual Charge Adjustment:

The annual charge will be reviewed each year by the Operations Department, and adjusted accordingly to reflect any change in maintenance requirements or costs, and to reflect any increase in the Consumer Price Index (CPI) for Vancouver, BC for the immediately preceding year, as provided by Statistics Canada.

RESTORATION PLANTING LAYOUT DIAGRAM (N.T.S.):

BIOSWALE DETAIL (N.T.S.):

Restoration Planting Specifications:

Topsoil
No topsoil shall be brought into the restoration area unless required to meet proposed grades, and must be approved by Phoenix Environmental. Any topsoil must be completely weed free. On-site soils may be used and moved to different locations within the restoration area, but only following removal of any Invasive plant species.

Planting Material
The requirements of the Canadian Standards for Nursery Stock shall apply except as and where modified by the requirements of the City of Maple Ridge or this specification. The Contractor shall be responsible for ensuring that plant materials delivered to the site are true to the specification of the Planting Lists. There shall be no substitutions of plants without prior written approval from Phoenix Environmental. Trees shall meet the requirements outlined in Section 9.2.12.2: Deciduous Trees of the BC Landscape Standard (Seventh Edition).

Transport and Storage of Plant Material
Roots of plant material should be protected, at all times, from frost, wind, sun, and extremes in temperature. All plants shall be kept well watered. Plant delivery shall be such that it minimizes storage of plants on-site prior to planting. Ensure a maximum of thirty-six (36) hours of storage of plant materials on-site. Where planting is postponed, plant material shall be stored and maintained with protection and irrigation procedures that will ensure the success of planting. All plants in containers, B&B, or wire basket, if not planted immediately, shall be stored in an upright position, with care taken to provide enough space between plants to allow light to reach all around to the bottom of the plant in order to avoid sunscald or burning when plants are planted out.

Water and Irrigation
Plants shall be inspected for moisture content at time of delivery and watered as necessary to retain a turgid condition. On-site irrigation shall be available during the duration of on-site storage. It is recommended to provide irrigation to the planting areas during the typically drier summer months (May - September).

Planting Time
Planting should occur in early Spring (March-April) or Fall (September - October) in order to ensure the highest possible plant survival rates. If planting is done outside of these windows, the Owner should plan a summer watering schedule or protection from winter frost based on the recommendations of Phoenix Environmental.

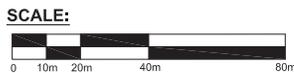

Planting Methods
Planting methods shall adhere to the recommendations in the BC Landscape Standard (Seventh Edition) 9.3.4: Planting. Typical spacing should be adhered to based on the diagrams provided on this drawing. Attention regarding the placement of shade-preferring plants vs. sun-preferring plants should be taken in consideration by the Landscaping Contractor. SPECIAL ATTENTION with respect to the Fire DP requirements involving coniferous trees have been applied to this plan - specifically that coniferous restoration trees are to be minimized. Those noted to be planted MUST be a minimum of 15m from proposed structures, and spaced a minimum distance of 7.5m apart from each other or other conifers on site.

Invasive Species & Control
Any Himalayan blackberry and/or English Ivy is to be grubbed up and removed from the site, prior to the restoration planting occurring. For the English Ivy growing up mature trees, the ivy is to be cut at a minimum of 1.0m from ground level and left to dry up and die. All Invasive species are to be controlled and ultimately eradicated during the 5-year maintenance period.

Existing Trees & Protection
All existing trees and vegetation within the Park, Parkette, and No Disturb Covenant Boundaries that will remain are to be protected during construction activities with wood framed barriers lined with high visibility snow fence, extended to the drip-line of the tree canopy. It is understood that some mature trees will be removed due to drainage / roadway design. It is the Contractors responsibility to acquire the necessary permitting and City approval prior to clearing or tree-cutting. Contact Phoenix Environmental if tree removal is required during March 15th - August 1st. Existing coniferous trees on site are to have their branches pruned from ground level to 3.5m height, to comply with Fire Hazard Assessment report. All woody biomass accumulation on ground in planting / park areas are to be removed from the site and brought to green waste recycling / landfill.

Log-Rail Fencing
This plan depicts where Log-Rail fencing is to be installed. They are to be composed of machine peeled pine rails and posts, with a minimum diameter of 150mm. Posts shall be spaced at 2.5m at a minimum depth of 0.6m, and rails are to be situated at a minimum of 0.4m from ground level. This is to occur prior to construction activities beginning so as to clearly mark out the boundary for Contractors working on Site - preventing unnecessary damage to the existing ESA vegetation.

Maintenance and Monitoring.
It is the Owner's responsibility to continue maintenance and monitoring of the restoration area throughout the required period of 5 years. Phoenix Environmental should be contracted to complete annual monitoring inspections and reports, which will include an evaluation of plant survival rates, presence of invasive species, condition of the restoration works, and measures required to address any deficiencies or issues. Plant survival rates shall be 100% for trees and 80% for shrubs and herbaceous plants. Any required replacements shall be the responsibility of the Owner, unless the plant material is under warranty by the Landscape Contractor. Ongoing management of invasive plant species throughout the restoration area must continue throughout the restoration maintenance and monitoring period (5 years) to the satisfaction of Phoenix Environmental and the City of Maple Ridge. A maintenance contract for annual weeding and invasive control (spring & late summer) by a Landscaping Contractor should be maintained for at least 3 years by the Owner.

SUBJECT: **Second Reading**
Zone Amending Bylaw No. 7264-2016
20421 123 Avenue

MEETING DATE: March 20, 2017
FILE NO: 2016-209-RZ
MEETING: C of W

EXECUTIVE SUMMARY:

An application has been received to rezone the subject property located at 20421 123 Avenue from RS-1 (One Family Urban Residential) to RS-1b (One Family Urban (Medium Density) Residential), to permit a future 2 lot subdivision. Council granted first reading to Zone Amending Bylaw No. 7264-2016 on September 6, 2016. The minimum lot size for the current RS-1 (One Family Urban Residential) Zone is 668 m² and for the RS-1b (One Family Urban (Medium Density) Residential Zone is 557 m².

This application is in compliance with the OCP.

As this proposal is to create fewer than 3 lots, this application is exempt from the Community Amenity Contribution Program.

RECOMMENDATIONS:

- 1) That Zone Amending Bylaw No. 7264-2016 be given second reading, and be forwarded to Public Hearing;
- 2) That the following terms and conditions be met prior to final reading:
 - i) Registration of a Restrictive Covenant for Stormwater Management.
 - ii) Removal of existing building;
 - iii) If the Director of Waste Management from the Ministry of Environment determines that a site investigation is required based on the submitted Site Profile, a rezoning, development, or development variance permit cannot be approved until a release is obtained for the subject property;
 - iv) In addition to the site profile, a disclosure statement must be submitted by a Professional Engineer advising whether there is any evidence of underground fuel storage tanks on the subject property(ies). If so, a Stage 1 Site Investigation Report is required to ensure that the subject property is not a contaminated site.

DISCUSSION:

Zone: RS-1b (One Family Urban (Medium Density) Residential)
Designation: Urban Residential

Existing Use of Property: Single Family Residential

Proposed Use of Property: Single Family Residential

Site Area: 0.236 ha. (0.58 acres)

Access: 123 Avenue

Servicing requirement: Urban Standard

2) Background:

The subject property is approximately 0.236 ha. (0.58 acres) in size and is bound by single family residential properties to the north, east, and west, and 123 Avenue to the south.

3) Project Description:

The current application proposes to rezone the subject property from RS-1 (One Family Urban Residential) to RS-1b (One Family Urban (Medium Density) Residential), to permit future subdivision into two single family residential lots. At approximately 1200 m² each, the proposed lots will be significantly larger than minimum parcel size in the current and the proposed RS-1b (One Family Urban (Medium Density) Residential) zone.

4) Planning Analysis:

Official Community Plan:

The development site is currently designated *Urban Residential – Major Corridor*. This designation is characterized by having frontage on a Major Road Corridor as identified on Figure 4 of the OCP, or has frontage on a road built in whole or part to a collector, arterial, Translink Major Road, or Provincial Highway standard. This designation includes ground-oriented housing forms such as single detached dwellings, garden suites, duplexes, triplexes, fourplexes, townhouses, apartments, or small lot intensive residential, subject to compliance with Major Corridor Residential Infill policies. The subdivision of this property into two lots and use of the RS-1b (One Family Urban (Medium Density) Residential) zone is in compliance with the OCP.

Zoning Bylaw:

The minimum lot size for the current RS-1 (One Family Urban Residential) zone is 668 m², and 557m² for the proposed RS-1b (One Family Urban (Medium Density) Residential) Zone. At approximately 1200 m² each, the proposed lots will significantly exceed minimum parcel size in both the current and proposed zoning. Rezoning is required to facilitate subdivision, however, as the minimum lot width of the proposed new lots is insufficient to meet lot geometry requirements in the current RS-1 (One Family Urban Residential) zone. No bylaw amendments have occurred since first reading that would affect this application.

Off-Street Parking And Loading Bylaw:

The Off-Street Parking and Loading Bylaw specifies that a single family structure requires the provision of a minimum of 2.0 off street parking stalls. The proposed RS-1b (One Family Urban (Medium Density) Residential) Zone also permits additional residential uses in the form of a temporary residential use, secondary suite, or detached garden suite (building details have not been provided at this time). There is an additional bylaw requirement of 1 stall per secondary suite or detached garden suite. As these proposed lots are significantly larger than required, all parking requirements should be easily accommodated on the site.

5) Environmental Implications:

The applicant has provided a tree management report that inventories the existing trees on the site, assesses potential for retention, and makes recommendations for replacement. This matter will be dealt with at the subdivision stage through the tree cutting permit.

6) Interdepartmental Implications:

- i) **Engineering Department:** The Engineering Department has established that existing services, including existing curb and gutter, and sidewalks are sufficient to meet current standards. Connections to municipal services will be a requirement at the subdivision stage.
- ii) **License, Permits and Bylaws Department:** The Building Department reviewed the application and noted that a geotechnical review would be required at the building permit stage, that a covenant would be required to register the stormwater management plant, and a tree protection covenant would be required (subdivision stage)
- iii) **Fire Department:** The Fire Department had no concerns with this application, but had instructions for demolition and the security of existing buildings from unauthorized entry. These have been forwarded to the applicant.

7) Citizen/Customer Implications:

Once second reading is granted for this application, it will be scheduled for public hearing, providing the opportunity for public comment.

CONCLUSION:

It is recommended that second reading be given to Zone Amending Bylaw No. 7264-2016, and that 2016-209-RZ be forwarded to Public Hearing.

MEETING DATE: March 20, 2017
FILE NO: 2012-013-DVP
MEETING: CoW

EXECUTIVE SUMMARY:

Development Variance Permit application 2012-013-DVP has been received in conjunction with a rezoning and subdivision application to permit the future development of 25 single family lots for the subject property located at 24152 112 Avenue. The requested variance is to:

1. Reduce the required width of the constructed road on 242 Street from an urban collector width of 11.6 m (38.1 ft.) to an urban local width of 8.6 m (28.2 ft.) across the frontage of the park.

Council will be considering final reading for rezoning application 2012-013-RZ on March 28, 2017. It is recommended that Development Variance Permit 2012-013-DVP be approved.

RECOMMENDATION:

That the Corporate Officer be authorized to sign and seal 2012-013-DVP respecting property located at 24152 112 Avenue.

a) Background Context

Applicant: Don Bowins
Legal Description: Lot A, Section 10, Township 12, New Westminster District Plan EPP64339
OCP:
Existing: Institutional, Conservation
Proposed: Low/Medium Density Residential, Conservation, and Park
Zoning:
Existing: RS-3 (One Family Rural Residential)
Proposed: RS-1b (One Family Urban (Medium Density) Residential), with a Density Bonus through the Community Amenity Program, and P-1 (Park and School)
Surrounding Uses:
North: Use: Single Family Residential
Zone: RS-3 (One Family Rural Residential)
Designation: Low Density Residential, Low/Medium Density Residential, Medium Density Residential, Conservation

South:	Use:	Single Family Residential
	Zone:	RS-3 (One Family Rural Residential)
	Designation:	Low Density Residential, Conservation
East:	Use:	Single Family Residential
	Zone:	RS-3 (One Family Rural Residential)
	Designation:	Institutional, Low Density Residential, Low/Medium Density Residential, Conservation
West:	Use:	Single Family Residential
	Zone:	RS-3 (One Family Rural Residential)
	Designation:	Medium Density Residential, Neighbourhood Commercial, Conservation
Existing Use of Property:		Single Family Residential
Proposed Use of Property:		Single Family Residential, Park and Conservation
Site Area:		4.46 ha (11 acres)
Access:		112 Avenue and a proposed new road
Servicing requirement:		Urban Standard
Accompanying applications:		2012-013-RZ/SD/WPDP

b) Project Description:

The subject property is approximately 4.46 ha (11 acres) in size and is bounded by 112 Avenue and single family residential to the north; and single family residential to the east, south, and west (see Appendices A and B). The subject property has a watercourse and steep slopes located along the western portion of the site, which will be dedicated as park for *Conservation*. An Official Community Plan (OCP) amendment is required to amend the *Institutional* designation over the remaining portion of the subject property to *Park* in the northern central portion of the property, and *Low/Medium Density Residential* over the remaining eastern half of the property. Access will be provided from 112 Avenue and a new road, extending from 112 Avenue southward to the southern property line, with the potential to serve lands to the south.

The applicant intends to rezone the subject property from RS-3 (One Family Rural Residential) to RS-1b (One Family Urban (Medium Density) Residential) and P-1 (Park and School) to allow for future subdivision into approximately 25 lots and a neighbourhood park. The applicant intends to choose the Density Bonus option within the RS-1b (One Family Urban (Medium Density) Residential) zone, which is specific to the Albion Area, enabling single-family lot sizes of a minimum of 371 m². The required amenity fee of \$3,100.00 for each lot less than 557 m² will be collected by the Approving Officer at the subdivision approval stage.

c) Variance Analysis:

The Subdivision and Development Services Bylaw establishes general minimum and maximum regulations for subdivision and development of land. A Development Variance Permit allows Council some flexibility in the approval process.

The requested variance and rationale for support are described below (see Appendices B and C):

1. *Subdivision and Development Services Bylaw No. 4800-1993, Part IV General Requirements, Section B. Highways 3. Where lands are being improved for Commercial, Industrial, Institutional or Multi-Residential use, the Street or Streets fronting the development site must be designed and constructed to collector street standards as set out in Schedule D "Design Criteria Manual", Schedule E "Supplementary Specifications and Schedule F*

“Supplementary Standard Detail Drawings”: To reduce the required width of the constructed road on 242 Street from an urban collector width of 11.6 m to an urban local width of 8.6 m across the frontage of the park.

A collector road width would normally be required adjacent to the park; however the developer is proposing to construct a bioswale in the boulevard for stormwater management, which will reduce the space available to build the full collector road. The required services can fit within the width provided, therefore, the Engineering Department can support the reduction in constructed road width. The Fire Department also does not have any concerns with the reduction in constructed road width.

d) Citizen/Customer Implications:

In accordance with the *Development Procedures Bylaw No. 5879-1999*, notice of Council consideration of a resolution to issue a Development Variance Permit was mailed to all owners or tenants in occupation of all parcels, any parts of which are adjacent to the property that is subject to the permit.

CONCLUSION:

The proposed variances are supported for the reasons discussed above, it is therefore recommended that this application be favourably considered and the Corporate Officer be authorized to sign and seal Development Variance Permit 2012-013-DVP.

SUBJECT: Development Variance Permit
12260 250 Street

EXECUTIVE SUMMARY:

Development Variance Permit application 2017-050-DVP has been received in conjunction with a building permit application for a single family house in the RS-1 (One Family Urban Residential) zone. The subject property is within the Agricultural Land Reserve, and for this reason, is associated with rural street standards. However, its RS-1 (One Family Urban Residential) Zoning typically requires full urban services, which would not be consistent with this rural context. The requested variances, pertaining to the Subdivision and Development Servicing Bylaw, are, as follows:

1. Vary the requirement to construct 250th Street to the north edge of the property line.
2. Vary the requirement for full urban upgrades to the street due to the site's rural context.

It is recommended that Development Variance Permit 2017-050-DVP be approved.

RECOMMENDATION:

That the Corporate Officer be authorized to sign and seal 2017-050-DVP respecting property located at 12260 250 Street.

DISCUSSION:

a) Background Context

Proposed Use of Property:	Rural Residential

b) Project Description:

The applicant seeks to build a single family house in accordance with current zoning. The site is within the Agricultural Land Reserve, but retains its historic RS-1 (One Family Urban Residential) zoning. Due to this discrepancy between its urban zoning and its Agricultural designation, the property has requirements for urban street standards, with upgrades triggered by a building permit, that are inconsistent with its rural context. For this reason, this variance request includes a relaxation of these urban standards in support of a consistent rural streetscape.

The existing road frontage along this portion of 250th Street has not been constructed to the full extent of the property and stops some distance south of the north property line (as evident in the ortho photo, attached as Appendix B). Generally, it would be a requirement of development servicing to require that road construction be completed to the full extent of the property, with the rationale that the completed road would facilitate subsequent development activity on adjacent parcels.

These urban upgrade requirements and the cost of road construction to provide a single family dwelling are significant. In a denser urban setting, these costs are shared by several property owners for the same length of road that would serve only a few rural property owners. This difference in infrastructure costs and servicing requirements would amount to a hardship for the property owner to provide. The existing rural streetscape has been considered by the Engineering Department to be adequate. In light of the lack of development potential in the area, there is little benefit to be gained by constructing this road. On this basis, this application is considered supportable.

c) Variance Analysis:

A Development Variance Permit allows Council some flexibility in the approval process. The requested variance and rationale for support are described below:

1. Subdivision and Development Services Bylaw No. 4800-1993, Section IV General Requirements, Part B, 2. To vary the following requirement:

Any dedicated but undeveloped highway within or immediately adjacent to a proposed subdivision or development shall be improved by the applicant in accordance with Schedule "A" attached hereto.

2. Subdivision and Development Services Bylaw No. 4800-1993, Schedule A, Services and Utilities. To vary provision of the following requirements in the RS-1 (One Family Urban Residential) Zone:
 - Street Trees
 - Water
 - Sanitary Sewer
 - Curb and Gutter
 - Underground Wiring
 - Sidewalks

The 2 parts to this variance request are justified below.

Varying the Requirement for Road Construction.

The subject property is within the Agricultural Land Reserve and adjacent to ALR properties to its north. Each of the properties to its north have sufficient road frontage to rural standards (along 248th Street or 124th Avenue).

As these properties are currently served by access and not supported for subdivision, there is little reason to construct a road that would be redundant for access purposes, and could exacerbate development pressures and land speculation in the Agricultural Land Reserve.

For these reasons, varying the need for additional road construction to a rural standard to the northern extent of the property is supportable.

Varying Servicing Standards in the RS-1 Zone.

The required servicing standards in the urban RS-1 Zone exceed those in a rural zone. The table below describes these significant differences. As the subject property is rural in nature, varying these urban standards is supportable.

Required Service	RS- 1 Zone (Urban) Required?	RS-3 Zone (Rural) Required?
Street Tree	yes	no
Curb and gutter	yes	no
Sidewalk	yes	no
Street Lighting	yes	Yes, but lesser standard
Sewer and Water	yes	No for parcels greater than 2 ha
Underground Wiring	yes	no

d) Citizen/Customer Implications:

By granting this variance, the intent of the Subdivision and Servicing Bylaw will be met, in that the road standard will remain rural in nature, which is appropriate for its current use and its long term land use designation as agricultural.

In accordance with the *Development Procedures Bylaw No. 5879-1999*, notice of Council consideration of a resolution to issue a Development Variance Permit was mailed to all owners or tenants in occupation of all parcels, any parts of which are adjacent to the property that is subject to the permit.

CONCLUSION:

The proposed variance is supported because the resulting development will be consistent with rural development, and there is little community benefit to requiring road construction along this portion of 250th Street.

It is therefore recommended that this application be favourably considered and the Corporate Officer be authorized to sign and seal Development Variance Permit 2017-050-DVP.

SUBJECT: Municipal Equipment Purchase, Two Tandem Axle Dump Trucks With Underbody Plow and Sander – Revised Report

EXECUTIVE SUMMARY:

The approved 2016 Financial Plan included funding for the replacement of a tandem axle dump truck. A public request for proposals to supply the truck resulted in eleven (11) proposals being received. Following a detailed evaluation of the proposals, Harbour International Trucks Ltd. was determined to be the successful proponent with best value. The approved 2017 Financial Plan includes funding for the replacement of a second identically equipped tandem axle dump truck. With the recent closure of the 2016 RFP it is recommended to award a contract to Harbor International for the supply of two tandem axle dump trucks.

RECOMMENDATION:

That the contract for the purchase of two tandem axle dump trucks be awarded to Harbour International Trucks Ltd. in the amount of \$514,380.00 plus applicable taxes of approximately \$61,725.60 and furthermore, that the Corporate Officer be authorized to execute the contract.

DISCUSSION:

a) Background Context:

A Request for Proposals (RFP-OP16-63) for the supply of one tandem axle dump truck was publicly advertised on November 17, 2016 and closed December 7, 2016. Eleven (11) proposals were received and evaluated. The results of the evaluations recommend award of a Del Equipment dump truck body with a 2018 International Workstar 7600 Set Back 6x4 Tandem Axle Cab and Chassis to Harbour International Trucks Ltd.

A second tandem axle with identical specifications is due for replacement in 2017 and has been approved in the 2017 financial plan. With the recent closure of the 2016 RFP, Harbour International has agreed to hold their pricing as well as provide a discount of \$3,528 per unit if two units are purchased.

b) Financial Implications:

The cost of the trucks are within the approved budgets under project LTC#8218, all funded from the equipment replacement reserve. Total purchase price for one unit with discount is \$257,190.00 plus applicable taxes of approximately \$30,862.80. The second truck is available at the same price for a total price for two trucks of \$514,380.00 plus applicable taxes.

CONCLUSION: Following a public request for proposals, and analysis of the received submissions, it is recommended that a contract to supply two tandem axle dump trucks be awarded to Harbour International Trucks Ltd. and furthermore, that the Corporate Officer be authorized to execute the contract.

SUBJECT: Partnering Agreement
- Employment Land Investment Incentive Program

MEETING DATE: March 20, 2017
FILE NO:
MEETING: Committee of the Whole

EXECUTIVE SUMMARY:

In the fall of 2014, Municipal Council approved the framework for the Employment Land Investment Incentive Program. The Employment Land Investment Incentive Program is intended to accelerate private investment and to attract new businesses and high value jobs to Maple Ridge. Council approved the use of partnering agreements as one of the tools to support the incentive program.

Three projects are now at the stage where partnering agreements are required in order for the City to provide incentive payments. In accordance with Council direction, agreements are presented for consideration at a public meeting, and although legally subject to Council approval, the project meets pre-established eligibility requirements.

RECOMMENDATION:

That the Corporate Officer be authorized to execute Partnering Agreements with:

1. 874668 BC Ltd. under building permit number 16-112807 in the amount of \$8,979.67; and
2. 874668 BC Ltd. under building permit number 16-112814 in the amount of \$5,784.22; and
3. 874668 BC Ltd. under building permit number 16-116919 in the amount of \$7,639.02

BACKGROUND:

The four year Employment Land Investment Incentive Program was approved in 2014 and launched in 2015 to help implement the Commercial and Industrial Strategy.

Three development projects meet the program eligibility requirements and have had their building permits issued. This is the trigger for the incentive program to begin, and the partnering agreement incentives are now due. In order to proceed, the City requires the owners to enter into partnering agreements to ensure the obligations of both parties are clearly understood. The projects are described as follows:

- One-storey industrial building located at 12865 Katonien Street, Maple Ridge, BC, owned by 574668 BC Ltd., receiving \$8,979.67 under the Employment Land Investment Incentive Program, and representing \$1.2 million in construction value under permit number 16-112807;
- One-storey industrial building located at 12895 Katonien Street, Maple Ridge, BC, owned by 574668 BC Ltd., receiving \$5,784.22 under the Employment Land Investment Incentive Program, and representing \$700,000 in construction value under permit number 16-112814; and
- One-storey industrial building located at 12920 261A Street , Maple Ridge, BC, owned by 574668 BC Ltd., receiving \$7,639.02 under the Employment Land Investment Incentive Program, and representing \$900,000 in construction value under permit number 16-116919.

Public notice was issued in accordance with Sections 24, 21 and 94 of the Community Charter.

BUSINESS AND FINANCIAL PLAN IMPLICATIONS:

Council previously set aside approximately \$3 million to fund the incentive programs. After covering off partnering agreements and tax exemptions to date, there is about \$1.3 million remaining. The partnering agreements referred to in this report will require that the reserve will be drawn down by \$22,402.91.

Through the incentive program, these projects have also benefitted from building permit discounts of \$22,978.83.

The incentive program also provides incentives in the form of property tax exemptions. Amounts will be driven by future BC Assessment valuations and are therefore difficult to predict. An estimate of the incentives, based on construction value and using 2016 property tax rates, would result in approximately \$98,000 spread over five years. Revitalization Tax Exemption Agreements will be necessary to initiate this portion of the incentive program once the projects are nearing completion.

CITIZEN IMPLICATIONS:

The City's approach to the incentive programs is one of full transparency. There have been numerous Council reports, presentations and newspaper notices over four years of incentive program implementation. The Employment Land Investment Incentive Program is intended to attract new commercial and industrial businesses and high value jobs to Maple Ridge. Incentive program goals and objectives have consistently ranked as highly desirable in citizen surveys.

CONCLUSION:

This report requests Council authorization to execute partnering agreements that will allow the City to provide financial incentives for the building permits noted in this report. The projects meet pre-established eligibility criteria adopted by Council. The incentives total \$22,402.91, and support the \$2.8 million in construction value represented by the projects. Partnering agreement incentives are one component of a comprehensive incentive program that supports the Commercial and Industrial Strategy.

- g. Encourage energy efficiency and alternative technologies.

Generally accepted principles that have been incorporated into the Employment Land Investment Incentive Program:

- i. Bricks and mortar (property value) contributes to the City's revenue stream;
- ii. Industrial land should be retained for industrial uses;
- iii. Focus on attracting high value jobs and high job densities;
- iv. Focus on businesses not driven by population growth - "retail follows rooftops";
- v. Time limited programs provide momentum;
- vi. Incentives shouldn't draw businesses away from the Town Centre;
- vii. The Town Centre commercial sector needs continued support; and,
- viii. A multi-pronged approach is needed; incentives alone are not the answer.

Schedule C: Ineligible Uses

These uses would typically have either lower job densities or lower value jobs, and therefore would not meet the objectives of the program:

- Dance schools, fitness centres and gymnastics schools
- Auction marts
- Mini-warehouses
- Parking of unoccupied commercial and recreational vehicles
- Indoor commercial recreational uses
- Restaurants

("Owner")

WHEREAS:

- I. The *Community Charter, Part 3, Division 1, Section 21* authorizes the City to enter into an agreement for the provision of a service on behalf of the municipality;
- J. The achievement of the City's vision, reasons, objectives and principles for the Employment Land areas requires private sector development;
- K. The Owner agrees to construct a Project that supports Employment Land Investment Incentive Program reasons, objectives and principles, as identified on Schedule A: Employment Land Investment Incentive Program Reasons, Objectives and Principles;
- L. The City agrees to provide a financial incentive, as identified in Section 4.

NOW THEREFORE in consideration of \$1.00 paid by the City to the Owner, the receipt and sufficiency of which the Owner acknowledges the parties agree as follows:

11. In this Incentive Agreement,

- a. "**Employment Land**" means that area identified in Schedule B of this agreement
- b. "**Project**" means:

New construction over \$250,000
12920 261A Street, One-storey industrial
Building Permit #16-116919

12. The Owner agrees to:

- k. Undertake the following service on behalf of the City: Either wholly or in part, achieve reasons, objectives and principles outlined on Schedule A: Employment Land Investment Incentive Program Reasons, Objectives and Principles, through construction and completion of a Project as described in Section 1;
- l. Comply with all other Municipal bylaws, regulations, agreements and permits in relation to the Project;
- m. Obtain final occupancy permit(s) for the Project within two (2) years from the date the Building Permit was issued.

Schedule A: Employment Land Investment Incentive Program Reasons, Objectives and Principles

A Revitalization Tax Exemption is established under this Bylaw to:

- o. Improve the ratio of jobs to housing;
- p. Expand employment opportunities for citizens;
- q. Attract investment to create a strong local economy;
- r. Diversify the tax base;
- s. Improve the industrial to residential property tax ratio;
- t. Encourage the use of environmentally sustainable building construction methods and materials; and,
- u. Encourage energy efficiency and alternative technologies.

Generally accepted principles that have been incorporated into the Employment Land Investment Incentive Program:

- xvii. Bricks and mortar (property value) contributes to the City's revenue stream;
- xviii. Industrial land should be retained for industrial uses;
- xix. Focus on attracting high value jobs and high job densities;
- xx. Focus on businesses not driven by population growth - "retail follows rooftops";
- xxi. Time limited programs provide momentum;
- xxii. Incentives shouldn't draw businesses away from the Town Centre;
- xxiii. The Town Centre commercial sector needs continued support; and,
- xxiv. A multi-pronged approach is needed; incentives alone are not the answer.

Schedule C: Ineligible Uses

These uses would typically have either lower job densities or lower value jobs, and therefore would not meet the objectives of the program:

- Dance schools, fitness centres and gymnastics schools
- Auction marts
- Mini-warehouses
- Parking of unoccupied commercial and recreational vehicles
- Indoor commercial recreational uses
- Restaurants
- Childcare centres
- Retail warehouse operations (“big box”)
- Operations relating to medical marihuana

SUBJECT: **Temporary Use Permit
22606 Dewdney Trunk Road**

MEETING DATE: March 28, 2017
FILE NO: 2016-325-RZ
MEETING: COUNCIL

EXECUTIVE SUMMARY:

Official Community Plan Amending Bylaw No. 7283-2016 was adopted by Council on February 28, 2017. The Amendment permits a taxi dispatch office and taxi parking to be located temporarily on the subject property for up to three years, with the possibility of a one-time only extension of another three years subject to Council approval. This report recommends that the Temporary Use Permit associated with the Official Community Plan Amendment be issued.

RECOMMENDATION:

That the Corporate Officer be authorized to sign and seal 2016-325-CU respecting property located at 22606 Dewdney Trunk Road.

DISCUSSION:

a) Background Context:

Applicant: SDM Transport Ltd.
Owner: SDM Transport Ltd.

Legal Description: Lot 4 Except Westerly 81.1 Feet, District Lot 401 Group 1, New Westminster Plan 7863

OCP:
Existing: Town Centre Commercial
Proposed: Temporary Use Permit

Zoning:
Existing: CS-1 (Service Commercial)

Surrounding Uses:

North: Use: Commercial (Automotive Repair, Indoor Recreation)
Zone: CS-1 (Service Commercial)
Designation: Town Centre Commercial

South:	Use:	Road, Vacant, Bus Loop
	Zone:	RS-1 (One Family Urban Residential), C-3 (Town Centre Commercial)
	Designation:	Medium and High-Rise Apartment, Town Centre Commercial
East:	Use:	Commercial (Child Care)
	Zone:	C-3 (Town Centre Commercial)
	Designation:	Town Centre Commercial
West:	Use:	Commercial (Restaurant, Office)
	Zone:	C-3 (Town Centre Commercial)
	Designation:	Town Centre Commercial

Existing Use of Property:	Vacant
Proposed Use of Property:	Temporary Taxi Dispatch Office and Taxi Parking
Site Area:	0.168 ha. (0.4 acres)
Access:	Dewdney Trunk Road, 226 Street
Servicing requirement:	Urban Standard

b) Background:

The applicant has previously applied to amend the temporary use provisions of the Official Community Plan (OCP) to allow a taxi dispatch office and taxi parking as a temporary use on the subject property (see Appendix A). To allow this temporary use, Council granted final reading on February 28, 2017 of the OCP Amending Bylaw No. 7283-2016 (see Appendix B).

Previously, the OCP Amending Bylaw No. 7283-2016 was considered at a Public Hearing and was granted third reading on January 17, 2017. It was granted final reading on February 27, 2017. This report relates to authorizing the issuance of the Temporary Use Permit.

c) Planning Analysis:

The subject property is located within the Town Centre Area Plan and is currently designated *Town Centre Commercial*. This land use designation aligns with the C-3 (Town Centre Commercial) zone, which permits a range of uses in a high density, pedestrian friendly form. Supported uses include professional services, retail, and apartment. As the proposed taxi dispatch office, fuelling, and parking uses are service commercial in nature, and are incompatible with the desired Town Centre policies, a Temporary Use Permit is more appropriate for this application instead of a rezoning application. In this way the use can be tested in the Town Centre to see how it fits in the urban setting.

The Temporary Use Permit is valid for a period of up to three (3) years, and may be renewed and extended only once for an additional three (3) years subject to Council approval. Should issues or concerns arise with this use of the subject property, Council is under no obligation to approve an extension to the permit.

CONCLUSION:

As Official Community Plan Amending Bylaw No. 7283-2016 was adopted on February 28, 2017; therefore, it is now appropriate to recommend that the Corporate Officer be authorized to sign and seal 2016-325-CU respecting property located at 22606 Dewdney Trunk Road.
