

# Downtown Enhancement Project

Lougheed Highway: 224 Street to 226 Street

Construction Update: October 5, 2018

Reinstatement of one of the brick pathway connections along Lougheed Highway near Westminster Savings Credit Union.

Pouring concrete sidewalk on the north side of Lougheed Highway from 225 Street to 226 Street.

## Downtown Enhancement Project

Construction of the Downtown Enhancement Project, Lougheed Highway from 224 Street to 226 Street, is ongoing. See below for updates on what's upcoming in the next two weeks.

## Construction Schedule update

This update focuses on construction occurring on the north side of Lougheed Highway between 224 and 226 Street. Construction dates are approximate and may change due to factors such as weather or unforeseen ground conditions.

### Lougheed Highway (224th St to 225th St)

- Completion of the concrete sidewalk behind the new curb on the north side of Lougheed Highway (Currently scheduled to be completed by October 10)
- Installation of the exposed aggregate stretch between the curb and the concrete sidewalk will begin soon
- Preparation and grading for the Lougheed Highway westbound lanes for upcoming paving
- Asphalt paving for the Lougheed Highway westbound lanes (Currently scheduled for October 12)
- Reinstatement of brick connector pathways in front of Westminster Savings to the newly installed concrete sidewalk
- Landscaping reinstatement behind the newly poured concrete sidewalk

### Lougheed Highway (225th St to 226th St)

- Completion of the concrete sidewalk behind the new curb on the north side of Lougheed Highway (Currently scheduled to be completed by October 10)
- Installation of the exposed aggregate stretch between the curb and the concrete sidewalk will begin soon

- Preparation and grading for the Lougheed Highway westbound lanes for upcoming paving
- Asphalt paving for the Lougheed Highway westbound lanes (Currently scheduled for October 12)
- Landscaping reinstatement behind the newly poured concrete sidewalk

As crews work on the exposed aggregate (lighting strip) and prepare for paving, the newly installed concrete sidewalk will be open for pedestrian access along the north side of Lougheed Highway. If any sections of sidewalk are briefly closed due to construction in the area, BA Blacktop will provide temporary pedestrian access to the roadway with gravel ramps, and pedestrians will be guided safely around the work by a flag person.

While the completion of this project will provide a solid foundation to create the community's vision of a safe, vibrant, livable Town Centre, it is possible there will be times during the construction period where some concerns may arise from time to time. Working together, it is our goal to do our best to minimize any inconveniences that occur, and we appreciate your patience as the contractor completes the work on this exciting project.

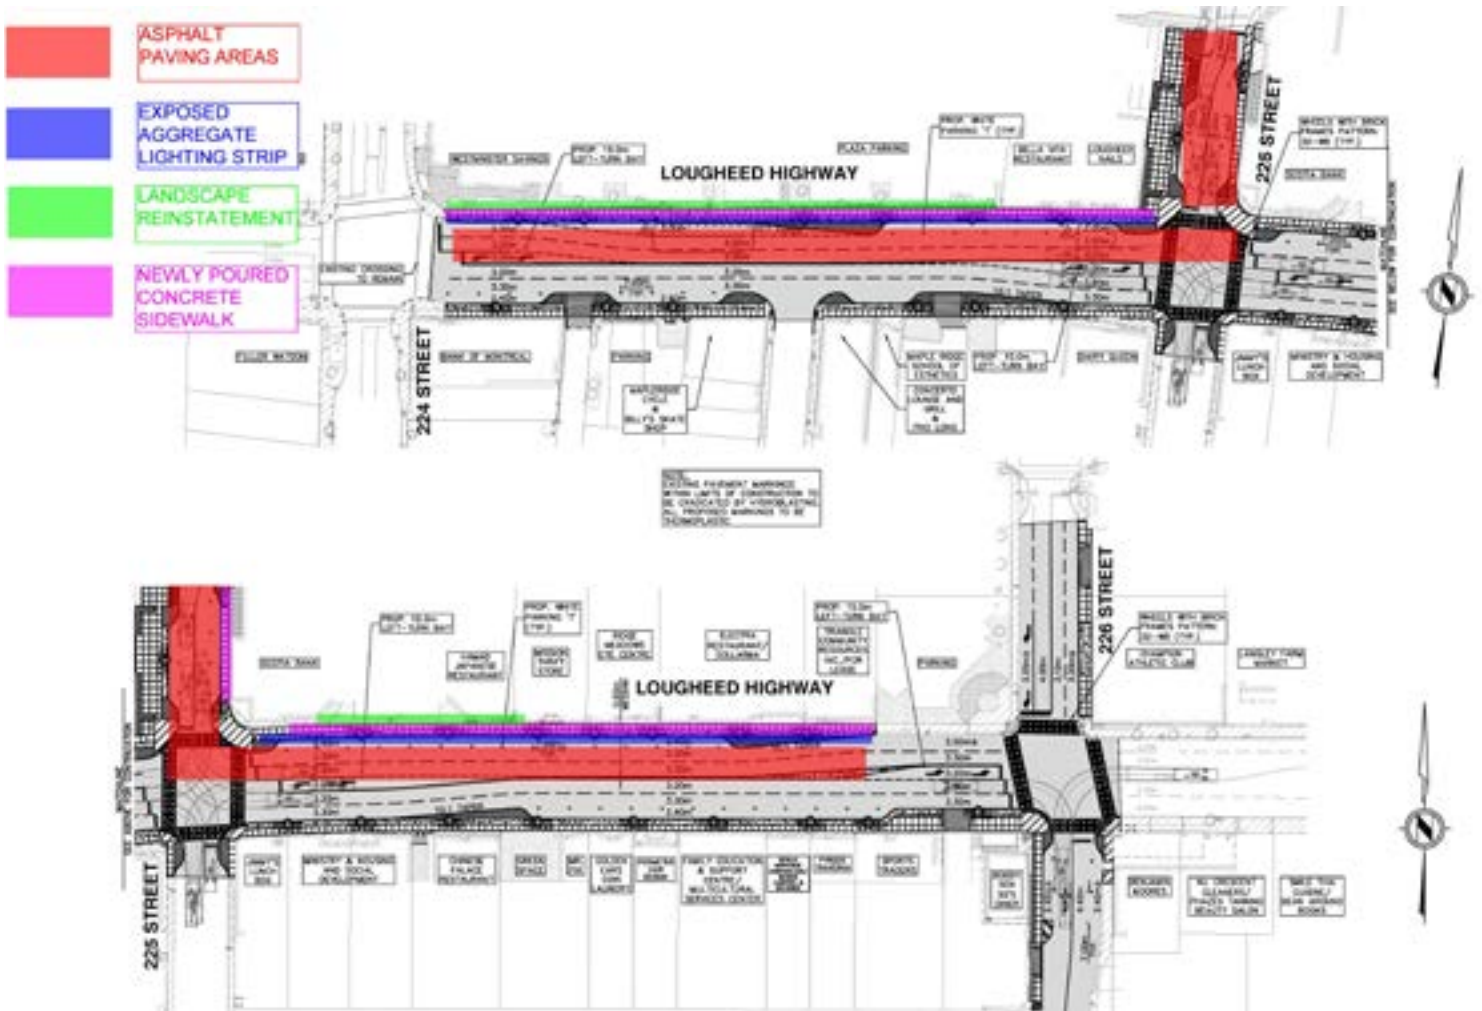

We will continue to provide you with regular updates regarding the project.

### For More Information

Please visit [www.mapleridge.ca/1867/](http://www.mapleridge.ca/1867/) for regular updates on the progress of this project.

If you have any construction-related questions or concerns, please contact Shahrzad Honarmand, Project Manager, City of Maple Ridge, at 604-467-7349.

# Expected Work Zones: October 5 - 19

Placing forms to pour a curb bulge on the north side of Lougheed Highway between 225 and 226 Street.

Placing tree grate forms in preparation for pouring exposed aggregate stretch on the north side of Lougheed Highway.
