SYNTHETIC FIELDS OPEN HOUSE

Arthur Peake/ Golden Ears Elementary and Telosky Stadium/Thomas Haney Secondary

OPEN HOUSE - JULY 19th, 2017

WELCOME

In Spring of 2017, Maple Ridge Council directed staff to investigate options of developing synthetic turf fields at school sites. In consultation with School District 42, two school sites, Arthur Peake/ Golden Ears Elementary and Telosky/ Thomas Haney Secondary were selected for further consultation with the public.

The Arthur Peake/ Golden Ears Elementary project is proposed to be a full size, lighted, synthetic turf surface with expanded parking accessed off 116th Ave to support this use.

The Telosky Stadium/ Thomas Haney Secondary project proposes redeveloping two existing softball diamonds to synthetic turf surfaces that would also accommodate fall/ winter field sports. This project also proposes to include an event space, centrally located fieldhouse and washroom building, and new sports field lighting for the two new synthetic surfaces as well as the two existing diamonds.

Please review the presentation boards, ask any questions of staff and fill out a comment form.
Thank you for attending the Synthetic Turf Fields Open House.

SPORTS FIELD LIGHTING

Technological advancements in sports field lighting have drastically improved energy efficiencies, glare and light spillage. The use of LED sports field lighting has further improved light spillage and has allowed for precise control in sports field lighting.

What Matters in Lighting Technology

New Light Structure System TLC for LED at Albion SC field #2 installed in 2016
