

STAFF STORY

MEET NICK

"I have been a youth worker with the City of Maple Ridge for ten years. In my youth there were several teachers and youth workers who inspired me to go down this path. I remember spraining my ankle while skateboarding in Peace Park and the youth staff rushing over to make sure I was okay. I thought they were so cool and had the best job in the world. Today I can confirm we are indeed VERY cool and definitely have the best job in the world!

My passions are music (guitar), cycling and occasionally still skateboarding. Last summer we ran a successful bike club and we're in the process of getting jam nights back in action. We even have a brand new drum kit!

I am constantly inspired by the humor, creativity and resiliency of the youth in our community."
