

FIREFIGHTERS PARK SKATEBOARD RAMP

PARK NOW OPEN

On Wednesday, July 13, 2022 Mayor and Councilors joined the Dion Family for a ribbon cutting ceremony for the new skateboard ramp at Firefighters Park. This wonderful new amenity at Firefighters Park was donated to the City by the Dion Family. Thank you to the Dion Family for this generous donation.

CONSTRUCTION - MAY 2022

Through the neighbourhood engagement phase, we heard a high degree of support for this project. We are now moving ahead with construction of this skateboard feature, which is expected to take place over the next few weeks, starting in early May. Stay tuned for this feature to take shape soon.

PUBLIC COMMENT PERIOD

The City of Maple Ridge was approached with a generous offer by a local company to donate a small skateboard area that would provide opportunities to develop skateboard skills and increase experience, especially for children and teens. This feature was proposed to be installed in Firefighters Park in the south west corner of the park area, near 238 St.

As this donation is a significant addition to Firefighters Park, we asked to hear from you regarding this donation. As part of our public consultation and engagement phase, we invited your feedback from November 23 to December 15, 2021.

Thank you for providing your valuable feedback on this project.
