

WHONNOCK LAKE PARK IMPROVEMENTS

PROJECT LOCATION

Whonnock Lake Park, 27871 113 Ave, Maple Ridge, BC V2W 1M9

SEPTEMBER 2021 - COMMUNITY CONSULTATION RESULTS

This project was the final phase of a multi-year redevelopment program to enhance Whonnock Lake Park and improve user experience. The work included installing washroom-changeroom facilities as outlined in our information panel, outdoor shower, drinking fountain and bottle filler station, and new beach access path.

During the planning for these improvements, we invited public feedback from July 7 – August 6 2021, and hosted an open house at the Whonnock Lake Centre on the 29th of July.

SPRING 2022 – CONSTRUCTION STARTING

Construction for new washroom/changeroom buildings, showers, drinking fountain and bottle filler will begin.

In addition to this work, the City is preparing to embark on a park masterplan update for Whonnock Lake Park.

This process will allow us to create a long-term vision for this destination park, which will guide how to best manage the growth of this asset for our community. This will also include further investigation of a caretaker residence and location.

NOW OPEN – YOUR PREFERRED LOCATION

The new washroom-changeroom facilities, outdoor shower pad, drinking fountain, and bottle filler are now open. Thank you for your patience throughout construction.
