The Committee appointed at meeting of of July 18th. reported as follows:

The Reeve and Council
Corporation of the District of Maple Ridge
Port Haney. B. C.

Re; Application of James Best for privilege
to connect with Municipal Water pipe on
Hinch Road.

Owing to the Provisions of Section 169 of the Municipal Act the Municipal Council has not the power to grant to any person the special privilege of connecting with any Municipal water pipe.

Your Committee, appointed to investigate this matter, is therefore unable to make any recommendation.

It would appear to be a question to be settled between the Port Haney waterworks Company and the applicants for service.

Respectfully submitted
(Signed) T. J. Drain.
Chairman.

Moved by Councillors Drain and Raikes that the report of the Committee re water service to James Best be adopted. Carried.

Clerk.

A. Mussallan
Reeve.

Gentlemen,

It is with great pleasure that I submit the report of the delegation that Maple Ridge sent to Victoria to represent to the government heads our wants and requests. The delegation as you know consisted of Councillors Raikes, Cameron and myself, with our Clerk Mr. McFarlane.

We interviewed the Minister of Public Works regarding our Loop road at Haney, bridge over Kanaka Creek and minor matters; the Minister of Finance on our financial relations.

We were successful beyond our most sanguine expectations. The prospects in so far as the financial relations were concerned, to me, did not appear at all rosy, after reading this before leaving for Victoria:

"To The Deputy Minister of Finance,
Victoria, B.C.

Primary Highways
Municipality of Maple Ridge

Further to the letter from our Clerk at New Westminster which was handed to you for your information this morning, I am now in receipt of advice from the New Westminster office which would indicate that this municipality is very much mixed up in their accounts.

From what we can gather this \$14,000.00 includes their own share on Secondary Highways and also \$2,000.00 Relief money which is now paid.

I think we had better wait until they have their accounts in better shape before dealing with the situation.

H. PHILIP,
Chief Engineer,
Dept. of Public Works."

You can understand the dampening effect of this description of our book-keeping.

Our member, the Hon. Mr. Dougheed, to whom we cannot give too much praise for his indefatigable efforts on our behalf, informed us in advance that we were going to get the Loop road but that the work could not be started until after the budget had been submitted and the estimates approved. He informed us also that an immediate inspection of the Kanaka

Creek bridge was contemplated and if it were found that a dangerous condition existed, the bridge would be rebuilt forthwith but if not and repairs would suffice this year the financial conditions would compel the government to rest satisfied this year with repairs and postpone the building of the new structure.

Our interview with the Hon. Mr. Bruhn, Minister of Public Works, was most satisfactory. You will remember that we undertook the repayment of \$7,000.00 a fourth of the cost of hardsurfacing the Dewdney Trunk Road between the ^{Sharpe Road} ~~Pitt-River-Bridge~~ and Haney, which was \$28,000.00. You will also perhaps remember that during my last reeveship campaign I expressed my firm conviction that when this part of the Dewdney Trunk Road was classed as an arterial highway we would not be asked for repayment of a cent. I am happy to report my ^{surmise} ~~representation~~ was correct. The \$7,000.00 as a debt of the municipality, has vanished by the stroke of a pen. We are free of any such liability.

When we pressed the Minister of Public Works to hasten on the construction of the Haney Loop road, he stated that the government had not much money and when I spurred him with the suggestion that he should pronounce it an arterial highway and start at once, he said they would do that but if they did he asked us pointedly whether we would supply able and conscientious labor, giving value for the money paid for it. I assured him we had plenty of husky men in Maple Ridge and that an energetic shrewd foreman could eliminate any shirkers - those physically unable to do the work we would try and look after ourselves.

Our most difficult task and final triumph was with the Minister of Finance. He kept us in purgatory to the end. After several disappointments we met the Hon. Mr. Jones, Minister of Finance, at 7 pm., on Friday, February 27th, in his office. He had with him his deputy Mr. Ed. Johnson and his Chief Accountant Mr. Harrison. We had our member, Mr.

Lougheed, who rendered us all through the greatest of services.

The delegation presented their case first for the blotting out of the \$53,000.00 charged us for the arterial highway. ^{We said} Maple Ridge did not owe it, would not and could not pay it. If they insisted the government might as well send an official down to take over and administer the municipality. We owed them nothing on primary roads, having always discharged our debts 100 per cent. The Minister answered with the books. It was on the books, that the government must stand by their books, that these books showed an indebtedness by the municipality beginning in 1922 with \$26,000.00.

The Reeve pointed out forcibly the injustice of the claim. Before the Arterial Highway had been begun, Maple Ridge was possessed of two parallel highways half a mile apart, the Dewdney Trunk Road and the River Road, serving the residents admirably and had asked for no more. The government had stepped in and without consulting the council or securing its approval had arbitrarily planted an arterial highway between these two half mile separated parallel roads. The traffic on the new road was 95 per cent tourist, meant for such, and would originate in Vancouver and New Westminster.

Mr. Lougheed took a firm stand in our behalf. He told the Minister flatly it had never been the intention of the government to charge the municipality a cent for the arterial road, that the debit entries were for accountancy purposes. On the other side of the Fraser River such claims had been abandoned formally, the North side should be similarly treated, he advanced. The Minister left us disappointed and disheartened, at least I was and I suspect my colleagues were too.

He retired. Two hours afterwards I was in my room 155 at the Express Hotel, alone, when a phone message from our excellent member, the Minister of Lands, raised me to the seventh Heaven. He told me the Minister of Finance had reflected and seen the justice of our contentions and had wiped out the liability entirely. Further, and here was the real plum, he

had acknowledged the accuracy of my letter of February 4th fixing the government's indebtedness to us of \$14,281.44 for their proportion of Secondary Road expenditure, etc. in our municipality. In that letter you will remember I complained of the heavy interest we were paying on that government debt. Then the Finance Minister himself came on the scene in the Empress Hotel, later, and personally confirmed the good news to myself and colleagues.

We take that as a great compliment.

My next question to the Finance Minister was when were we to get the cheque for \$14,281.44. His exact words in reply were, "I am very busy at present but I assure you, you will get it in a few days. Now go home and be happy."

Gentlemen, we have come home and we are happy.

I might mention one thing before finishing my report on these matters. As a matter of more than curiosity I asked Mr. Loughheed what his opinion was in regard to the comparative value of deputations and requests by correspondence. His reply, given unhesitatingly, was that in his opinion a delegation was much more satisfactory, expeditious and effective than any amount of letter writing.

Now, gentlemen, there is one matter that was forcibly impressed upon me by our correspondence and interview with the Minister of Finance and the Minister of Public Works, the inefficiency of our past book-keeping. I suspected it before - I am sure of it now. We must put our book-keeping on a sounder system. For instance in our 1930 Financial Report, the books contain a statement that we owe the government \$8,762.23 - we don't. Where did that figure come from and who had the right or authority to enter it? Take that quotation from the Government letter of Feb. 9th :

"I am now in receipt of advice from the Lewestminster office which would indicate that this municipality is very much mixed up in their accounts. . . . I think we had better wait until they have their accounts in better shape before dealing with the situation."

That is a most damning criticism of our book-keeping.

During my electoral campaign, I repeatedly declared publicly that the municipality owed the Government nothing and declared my reasons. These statements of mine were spurned with scorn. The Government now cedes I am right. There is that deficit of \$24,000.00. The cheque now on its way - \$14,231.00 - in payment of debt, shows I was justified in characterizing the deficit as imagination and that the council of 1930 is entitled to claim a nice cash surplus. This strengthens my argument for a special audit. It is worth the extra expense. We want a financial statement at the end of the year plain to the ordinary ratepayer unversed in the technique of accounting or the intricacies of cross entries, a statement which will reveal income and expenditure at a glance and the details of the expenditure.

Now was it that from the same books the same figures my late opponent showed to his own satisfaction, we were \$24,000.00 in the hole and he kept the books and I arrived at a different conclusion. I feel gratified the Government agrees with me and that my business ability is not altogether so low as represented to the electors of Maple Ridge.

There should be no ambiguity in municipal books and I am satisfied there is a change needed. Bear in mind I am not in the slightest impeaching the integrity of the man who kept the books. That is far from my mind. It is the system and the operating of that system I attack.

Reeve.

Gentlemen,

On March 27th I received an invitation from Mr. P. Phillip the Deputy Minister of Public Works, to meet him in Vancouver on Tuesday, March 31st, and discuss the elusive \$14,281.44 cheque at one time supposed to be on its way to our treasury, as per Minister of Finance's letter of March 7th and which has never arrived.

I got in touch with Councillors Cameron and Ellinson and we arranged to meet at 10 am. on Tuesday and go to Vancouver and meet Mr. Phillip. I waited for twenty minutes over the time appointed, for the councillors but they did not turn up and I left alone for the rendezvous.

After half an hour with Mr. Phillip, I was reinforced by Councillors Cameron and Ellinson arriving on the scene. At the outset we were faced with the point blank declaration that it was impossible to release the \$14,281.44 from the Revenue Consolidated Account and that another solution than liquidating our debt by cheque must be found. It had been found impossible to redeem the promise by the Minister of Finance and justify his statement that the money would be remitted and might be on the way to our credit at the time of his writing. We had to adopt the best alternative we could and we did. First the \$3509.18 already paid us, was deducted and although it is comparatively a trivial matter, I may mention the Deputy Minister suggested the balance of \$10,772.²⁶ might be converted into round numbers and made \$10,700.00. I agreed to the convenience of round numbers but counter suggested that the sum be \$10,800.00 and to this the Deputy Minister good naturedly yielded.

The best alternative to the actual money we could secure was that the \$10,800.00 should be spent on the reconstruction, construction, improvement and surfacing of roads and bridges for the convenient use of the Provincial Highway and for the extra municipal traffic entailed thereby. Of that \$10,800.00 the expenditure this year must not exceed \$6,000.00. Next year the balance of \$4,800.00 is authorized. The Government undertakes

to meet our duly certified bills or pay rolls to that amount as they become due.

I think the Government will see to it that their obligation is fulfilled.

Now, gentlemen, you have heard my report and if you have any criticism to direct against it, please do so frankly. I have done my best and given my time and money to the consummation above narrated. As you know, the cost of representing the Municipality in the Milk Bill controversy at Victoria was limited and small. It was only for one day. I spent three over that unsettled cheque chasing and being chased by members and officials with the result already reported. But if Maple Ridge is satisfied that nothing better in the settlement of the government's debt to us could be achieved, then I shall consider the time and money worthily spent.

Yours,

J. Mussallan
