Statutory Meeting of the Council January 21st. 1932.

Statutory meeting of the Maple Ridge Municipal Council held in the Municipal Hall Port Haney B. C. on January 21st. 1932 at 10 oclock a. M.

The Council elect having duly ~~subscribed~~ taken and subscribed to the statutory declaration before the Reeve, took their seats at the Council table at 10.15.

As has been the custom for a number of years the ceremony of the Pipe of Peace then took place all persons present taking part.

The Reeve in a short address welcomed the Council as all the members having been re-Elected he took this to be a vote of confidence by the Electors in returning the Reeve and All the Councillors.

Each Councillor in a short address thanked the Reeve for his kind remarks and assured him that they would give their best efforts to the affairs of the Municipality during their term of office.

Report of Returning Officer was the read as follows;-

To the Reeve an Council
Municipality of Maple Ridge.

Gentlemen:-

I herewith append my Report of the Municipal Election held on January 16th. 1932.

I would reccomend that next year the Polling Station for Ward 3 be held in some more convenient building, the Hastie store is not provided with lights and is cold and dark.

As there were only three votes for Ward 2 at that station it seems useless to make it a double poll.

I would like to express my thanks to your Clerks. Mr McFarlane and Mr. Davenport for the valueable assistance which they so cheerfully gave me.

Thanking you for my appointment and trusting that the Election was carried out to the satisfaction of all.

I remain
Yours respectively
W. E. Beckett
Returning Officer.

Report of the Returning Officer of Poll held January 16th. 1932.

For Reeve for the year 1932 I declare Solomon Mussallem elected by a majority of 249 ballotts over the next highest.

Council then adjourned.

Reeve.

Gentlemen,

As the majority of you know, after the Hammond Sewer Court of Revision last Wednesday, we held a special Meeting of the Council and studied the estimates again, scrutinizing and paring every item like misers. With the exception of a few items, not amounting in the aggregate to much, we found we had already scraped them bare enough, leaving just enough to get through.

The position, as I see it, is this. To meet the sudden new imposition on our finances, this year, we have been reluctantly compelled to provide for another \$5,000. \$2500 for Mothers Tensions and \$2500 for Essondale and Tranquille hospitals. To provide this, two courses only presented themselves to us:- Raise the mill rate or cut Ward appropriations; repulsive alternatives but necessary. It is no use disguising the fact that Maple Ridge this year cannot stand a higher mill rate. If we did impose it, would it benefit us in the least? Imposition is one thing, collection is another. Of the two evils we chose the lesser, as we considered it. That is, to sacrifice the Ward appropriations this year to the amount of \$1000 each ward. Personally I saw no other alternative. My own decided view is that as long as we can get along this year without dilapidation we must do so and balance our expenditure as near as possible with our revenue. Establish a reputation for sound financing at the same time.

Compare our position financially with preceding years - go no further back than 1929. Let me submit suggestive figures and see our plight now.

In 1929 our Government grants totalled \$22,132.48; our Road and Toll Tax collections were \$5,871.75; our Police Fines \$1,562.25; a grand total of \$29,566.48.

Last year that total had dwindled to \$18,567.56;
\$18,507.56
a shrinking of \$11,059 from 1929.

Last year our Government grants were \$16,416; our Road and Toll Taxes \$1,855; our Police Court Fines \$236.25.

What have we to expect this year? Still less

in Government grants and greatly heavier obligations, far less local revenue and a great many impoverished settlers and residents clamouring for relief in their distress. Above that the prospect of diminished tax collections.

What is our anticipation from the Government by way of grants - \$14,000 - Note, it was over \$22,000 in 1929 and no social services to meet. What from Road and Poll Taxes? Basing it on last year \$1,000. What from Police Court fines? On the same basis \$250. Altogether \$15,250; approximately half that of 1929 and besides \$5,000 additional obligations to provide for.

With our 1929 Revenue we could have given \$4,000 to each ward without increasing rates.

The Government, however, have kindly given us power to impose a special tax to meet the new social service obligations. A pretty way of passing the buck surely. To give us leave to lay a further burden on an already overburdened class.

Again, can we expect honestly to collect the same proportion of taxes as we did last year? Personally I don't think we can reasonably expect to do so.

Then our unemployed, our pinched and poverty stricken population to provide for by work or by direct relief.

This is a dark picture and may be called pessimistic. I call it a stern presentment of stubborn facts. Unfounded optimism is silliness, like the fabled ostrich sticking his head in the sand and pretending there is no danger.

We have left for Ward expenditure simply \$8,575.

In the past a certain kind of distribution was in vogue which I think can be improved upon. I suggest a more equitable distribution would be, the apportionment of the appropriations on the basis of assessed ward values and revenues. This would give Ward 1, \$2025; Ward 2, \$1950; Ward 3, \$1800; Ward 4, \$1300; Ward 5, \$1500. That is only my opinion. Yours may be different.

3.

We have spent a great deal of that money already.

Now as to financing generally. Maple Ridge has always enjoyed an unblemished reputation for meeting its obligations and I hope we shall ever maintain it. I will never consent to its being classed with the unfortunate municipalities who have encumbered themselves so deeply that the banks have refused to honor their cheques. What is the use of issuing cheques without funds to meet them? Is that any good to the payee in immediate need of the necessities of life?

This crisis is not of our making and I hold still it should have been met nationally. But that is not our immediate care. It is what we have to do now. One essential is to exact a dollars worth (or more if we can) for every dollar we spend.

Thanks to our past two years' policy our bridges are provided for. To that policy I look, at the end of the year, for grounds for congratulations in leaving them in fairly good shape. But for our bridge policy, what would be our condition this year? Many collapsed bridges, much interrupted communication, vexation and hardship and loud dissatisfaction from the ratepayers.

Also we may pride ourselves on our hard surface road policy. Roughly, we have eleven miles of paved municipal roads, needing little repair. That should aid in curtailing road expenditure.

On the whole the ratepayers must remember that in face of all our difficulties, in spite of new social obligations, we have reduced the rates for this and last year instead of the easier solution - raise the rates and throw the responsibility for non-payment on the ratepayer. At any rate we have done our duty to the best of our ability.

By. Law

Moved by Councillors Cameron and Raikes that Land Purchasing

Gentlemen:

There is one matter I would like to draw to your attention which is Province wide in its effect and is detrimental to industry everywhere in B. C. That is the comparatively recent rise in the price of gasoline by two cents. I know something about that business and in my opinion it is absolutely unjustifiable. I think the Council should add its voice to the general indignation expressed. It is the duty imposed on the imports from the other side backed up by the power of applying an additional dumping duty which has provided the means of exploiting the gasoline retail trade and inflicted a hardship on the public of B.C. So far as I know in the Eastern Provinces there is no two cent raise in gasoline.

Were it not for these duties I could import gasoline and retail it at less than thirty cents and then make a profit. And the plea that it is protecting B.C. industries is erroneous; it is crippling them, for nearly every B.C. gasoline selling company is a subsidiary one to the United States interests. The really B.C. company is compelled to buy its supplies from the States companies. The remedy is as I see it is the suspension of these duties until the two cents are taken off. Mr. Bennett, the Premier of Canada, declared on one occasion that if the tariffs imposed were exploited for the sole benefit of the few wholesalers to the disadvantage of the general public he would advise taking the duties off at any time. I believe he was sincere in this. He did this on one occasion, when the jobbers exploited the plate glass duty to the detriment of the public it was promptly taken off.

This is no party matter. Witness the leading article in the "British Columbian", strongly Conservative and the oldest paper in B.C. maintained, and the loud protests from every side of public opinion. I would suggest that we Communicate with Mr. Barber and Mr. Loughheed and represent to them the unreasonableness of this rise to their governments, the hindrance it is to industry at a time when distress through unemployment is rife throughout our land.

Another matter is local discrimination. Cloverdale dealers are charged one cent a gallon less than Maple Ridge - Why, - not because the freight charges are heavier to Maple Ridge - the C.P.R. charges the same and there are fewer switchings. But because Cloverdale is nearer the border line of the States and they must meet competition. This is a statement made by the Imperial Oil Co. In Vancouver the cost is twenty-eight cents a gallon and at Cloverdale it is the same price. In Maple Ridge it is twenty-nine. Retailed at thirty-two cents to the public in the three places.

(Signed) S. Mussallem,

Reeve. *S. Mussallem*

Resolution.

Moved by Councillor Ellinson, Seconded by Councillor Hope, That the report of Reeve Mussallem Re price of gasoline in B. C. be accepted as a whole and included as a motion by this Council, copies to be forwarded to Mr. H. J. Barber M. P. and the Honourable, N. S. Loughheed, for action.

Letter from the Inspector of Municipalities enclosing copy of letter to the Attorney General from Miss Gaunt re alleged closing of ~~road~~ subdivision road used by Japanese. (in N.E. $\frac{1}{4}$ of Sec. 5 Tp.15)

Moved by Councillors Hope and Ellinson that the Clerk write the Inspector of Municipalities re letter from Miss Gaunt that the information contained therein is not quite correct as the road on question isx only a subdivision road allowance that part of which is in dispute has not been improved in any way by the Council, but has been used by the Japanese in question as an outlet for his property, as a bad hill prevents this road from being made through, the Japanese has made a detour through his property coming out on the road further along to a point where it is improved from the other end. It is this detour that the Japanese object to being used by the Public. There does not appear to be any advantage in anyone using the road in question as the main roads are in good condition and there is no advantage in distance, We have notified Mr Miki the Japanese to remove all obstructions from thés Road Allowance. - Carried.

Moved by Councillors Raikes and Gunn that the Clerk writeto Mr Miki advising him that he must remove all fences, Gates, Wells, Buildings and other obstructions from Road allowance West of Lot 1. forthwith. Carried.

Reeve.

Special meeting August 11th. 1932.

Special meeting of the Maple Ridge Municipal Council held in the Municipal Hall Port Haney. B. C. on August 11th. 1932 at 8 oclock p. m., present the Reeve and full Council.

Letter from the Department of Public Works recinding classification of old Dewdney Trunk Road from the West Boundary of the Municipality to Kanaka Creek Reference No. 60R, by Order-in-Council.

The Reeve presented a report, which was read, giving a brief history of the Road in question deploring the action of the Government in recinding the classification.

Moved by Councillor Cameron seconded by Councillor Ellinson that the report of the Reeve on the action of the Public Works Department re Road 60R be filed and a strong protest be made to the Government. - Carried-.

Moved by Councillor Hope Seconded by Councillor Cameron, Reference Department of Public Works letter File No.5448-12 dated August 6th. 1932.

Whereas the action of the Department in recinding classification of part of the old Trunk Road and River Road Reference NO, 60R places an additional burden of taxation on this Municipality, AND Whereas this road will require considerable reconditioning to make it fit for winter use, BE It therefore resolved, this Council here assembled strongly protest the action of the Government and refuse to accept their decision. - Carried-.

Council then adjourned.

J. Mussallles
Reeve.

Gentlemen:

I have called you specially together to consider a very serious problem with which we are faced. The latest communication from the government notifies us that the Dewdney Trunk Road has been thrown on our hands to repair and maintain as best we may. This I declare is an atrocious act of bad faith in the face of the distinct and unequivocal promises we have received as to its classification.

Let me give you a brief history of the road to refresh your memories.

Dr. Sutherland, Minister of Public Works in the government immediately preceding the present one, classified the Dewdney Trunk Road as a Primary Highway between Sharpe Road on the west along the Dewdney Trunk Road to Ontario Street, Haney, diverging thence down Ontario Street to the River Road and then on to the Mission Boundary on the East as a Primary Highway.

In 1929 the present government announced its intentions to construct the new arterial highway and instead of following the route of the paved Dewdney Trunk Road, decided to strike out a new route, parallel and within a few hundred yards of it. Immediately a strong opposition manifested itself and petitions were signed objecting to the extravagance and abandonment of the Dewdney Trunk Road and forwarded to Premier Tolmie.

These petitions stressed the absurdity of the three parallel main roads within half a mile of each other; that the Dewdney Trunk Road was the road chosen by the McBride Conservative government as the proposed inter-provincial highway and that the new highway through Maple Ridge was uncalled for as far as up to the Kanaka Creek at any rate was concerned. The menace of the abandoned Dewdney Trunk Road being thrown on the municipality was on the horizon.

The petitions had the effect of extracting a promise from the Minister of Public Works that the old Dewdney Trunk Road would be maintained 100% by the government.

The assurance from the Minister almost annihilated the opposition to the new highway. In August 1931 the Minister kept his promise and the Dewdney Trunk Road was classified as arterial.

Now comes the thunderbolt, this breach of faith, the rescinding of that classification and the road reverted to the Municipality. Our situation is perilous.

We are faced with a reduced revenue and this government has seen fit to saddle us with Mother's Pensions, Tranquille, Essondale and ordinary hospital expenses. Essondale has billed us with \$229.00 for the month of April. Now comes the Dewdney Trunk Road for maintenance and repairs, in most parts badly cut up. We have had to appropriate \$7000.00 for hospitals and Mother's pensions. Are the taxpayers and the landowners to be taxed out of existence? I again repeat that we have a guarantee from a Minister of the Crown followed by the Gazette notice that the old Dewdney Trunk Road was to be treated as an arterial highway. But for that promise there would have been no third, superfluous road imposed on us at great expense. The claims of the objectors would have been carried to the highest court in the land.

The old Dewdney Trunk Road could have been improved as to widening and straightening from the Pitt River to Kanaka creek at a cost trifling in comparison with the new highway. At present it carries more traffic than the new road.

Are we going to take this gross violation of practically an agreement lying down? I forgot to mention that Mr. Lougheed in giving his personal assurance to a delegation in Victoria asserted that there was no machinery to demote the road, only to elevate it.

Now this is not a matter of party politics; it is a question of vital, paramount importance to Maple Ridge.

What are we to do? I want your candidly expressed opinion. Are you going to submit patiently to the caprices of a Public Works Department or refuse to accept the road and let the government do as they see fit.

J. Mussallem

Moved by Councillor Ellinson Seconded by Councillor Cameron that this Council reply to letter of the 15th ultimo from the Hon, Ralph Bruhn M. L. A., Minister of Public Works with reference to completion of Fraser Street Fill as follows:

Be it resolved

this Council of the Municipality of Maple Ridge do assure the Hon. Gentleman, they sincerely appreciate what the Provincial Government has already done towards alleviating distress in this Municipality and would again urge upon the Government the necessity of further consideration, and the imperative need for assistance to our poor and needy.

We plead the following extenuating circumstances,:

First, The large number of Ratepayers who have been unable to pay their 1932 taxes, also arrears of taxes, thus creating a serous Financial condition for this municipality;

Second. The depressed condition of industries in this district who are only working part time, with no prospect of improved conditions in sight;

Third. This Municipality is largely composed of small holders on five and ten acre farms, who previously have depended on the local industries to obtain at least six months work out twelve to enable them to get by, This source of income has been completely cut off and their condition is pitiable;

Fourth: With the approach of winter weather the condition of many men, women, and children who are now undernourished and underclothed will create an impossible situation for this Municipality, without Governmental assistance;

We therefore Sir, as a measure of releif, ask the completion of the Arterial Loop Fill. same to be done by local labour.

Your earnest consideration will be appreciated by this Council and the Municipality at large, Carried.

A. Mussall
Reeve,

Gentlemen:

FEB 4 1933

We have a very serious problem and duty facing us as elected councillors and reeve of this municipality, one that I was aware of and you no doubt are too--in the matter of relief-- That is to see our relief funds are expended for the benefit of the really destitute and not taken advantage of by designing men sunk so low in self respect that they would live on their fellows without an idea of helping themselves. Councillor Hope has put mine, and I think your ideas, in a concise and concrete shape in the following memorandum--and suggests a solution which I agree with.

(See Councillor Hope's letter)

Now it is a very disagreeable duty but we owe it to our constituents and we had no right to stand for office unless we were resolved to carry out that duty. We must have none of that cheap generosity. Give other peoples money away lavishly without due regard and the most minute inquiry. We have had too much of that in the past and I have steadfastly set my face against it in the past. I told the Maple Ridge electors what my policy was and no cheap sneers from disgruntled persons will swerve me from what I consider my path of duty. No one should receive a cent of direct relief in this municipality who has realizable assets and who is not really in need.

No one indeed who is not willing to help himself should be regarded with any sympathy. Anyone coming forward with a claim for relief must be prepared not only to disclose his destitution but what he has done to release himself from that distressed condition. Has he had any work offered to him. If so why did he not accept it. The wages were not enough--that man's case should not be considered further.

This is not the season to ask them whether they have planted their piece of land with vegetables, whether they have fished, whether they have done anything to produce something to eat, something to augment their relief work. But the time will soon be here--and I intend to introduce a regular inquisition. I for one am determined that this municipality shall only help those who are willing and able to help themselves and not be milked by every tub thumper who declares we are all a capitalist lot and oppressing the working men. We know that kind of working men. The sooner that class recognizes we will not be imposed upon the better it will be for our municipality and the decent people therein. I say it is no agreeable work but if you accepted the office of Councillor you have a sacred trust imposed on you and you must have the courage to tell applicants for relief that you are not a charitable institution but a business representative of people who have entrusted their funds to you to be administered equitably. Men struggling under adverse conditions not only to live and keep their families in clothing, food and fuel but paying their rates. These rates must be kept as low as possible. There must be no extravagance with hard working farmers moneys.

yours etc

Reeve S. Mussallen,
Port Haney, B. C.

Dear Reeve:-

In view of the much more serious situation of unemployment in our Municipality, and in view of several complaints of abuse of relief given out by the Municipal Council by ratepayers, I feel that something definite should be done to clear ~~the~~ skirts of this abuse.

I therefore submit for your consideration that we adopt something along the following lines:-

- (1) That the Council as a whole shall be a committee to go over very carefully the list of those registered for relief, and if in the opinion of any member that certain cases should be investigated that this be done, further that where we have received complaints from ratepayers regarding abuse that these be brought before the committee, and made lay their charges so that we can deal with the case intelligently.
- (2) That no relief be given to any person having a car with a 1935 license, or to any person who to our knowledge purchased a car since having relief.
- (3) That no money be paid to any person for work done under relief, but orders be given to that amount on any store within the Municipality mentioned.
- (4) That a careful consideration be given to the amount already spent this year, and a general view be taken of all monies expected this year be given consideration immediately, as I feel that unless this is done we may find ourselves in a serious mess before the middle of the year.

That what ever we adopt regarding this matter that the Local press be given full information in order that the Ratepayers may back up the Council in their own interests.

All of which is respectfully submitted,

Signed Wm. Hops,

Copy by H.M.D.

REEVE.

Corporation of the District of Maple Ridge

TELEPHONES:
Haney 6. Hammond 3661.

Port Haney, B. C.,
April 10th, 1933.

Sir:

I have the honour to request your immediate attention to the serious condition that has arisen in the municipality of Maple Ridge through the inability of the municipality to further carry the burden of relief to the unemployed. A very pitiful situation exists, men, women and children being without the necessities of life, while numbers of children are bare-footed and unable to attend school on empty stomachs. Such a painful condition of affairs would not have arisen had your government carried out its intention of paying 100 per cent of the relief charge for single and transient unemployed.

As you are doubtlessly aware, your government has left the municipality with practically no source of revenue beyond that which can be collected from the land-owners of Maple Ridge, which is a farming community and quite unable to support any further taxation. It is almost impossible for the farmers to pay taxes at all under existing market conditions, and it is unthinkable that they should be called upon to mortgage their holdings to take care of a situation that has arisen through an industrial crisis in which they were not even indirectly concerned.

The municipality has endeavored to give your government loyal support at all times and to co-operate to the fullest extent of its powers, but it has its limit of endurance, and the burden now imposed upon it is more than it can be reasonably expected to carry. It can not achieve impossibilities however willing it may be to assist.

In connection with the question of relief to single men and transients, Mr. E. E. Adair, the inspector of relief for the district, advised the Maple Ridge Municipal Council in January that no more than \$6 per mensem should be paid in each case. The council thought that the amount was inadequate and decided to make no payments at all. Mr. Adair then consulted Mr. Charles Tubman, chief investigator for the lower mainland, and, later, gave instructions that \$10 per mensem was to be paid, the government to reimburse the municipality as usual the full 100 per cent. Relying on the good faith of your government to meet its obligations, the municipality made payments as directed.

Again in January a letter was received by Maple Ridge Municipal Council from Mr. T. Whitehead, secretary of the committee of unemployment, pointing out that the municipality must give relief to a man named Cummings, a provincial case. He stated that the government could be billed for the amount, the municipality receiving the usual 100 per cent.

In February Mr. C. Tubman wrote to the Maple Ridge Municipal Council demanding that a bill for \$11 contracted by a man named McLeod be paid. The bill, in excess of any relief the municipality would have given, was for groceries,

and Mr. Tubman pointed out that the government would refund the municipality as usual.

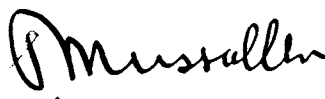

Further instances of the government's original intention to pay 100 per cent in the case of single men and transients could be quoted, but those given are ample to show that the municipality was led to make relief payments for the government on definite assurance of full repayment.

I regret to have to add to the troubles of yourself and cabinet at this juncture, but the situation is desperate and must be met, the municipality being at the end of its financial resources. It may be possible for your government to take over the entire responsibility of caring for the single men and transients, as has been done in the case of Vancouver, without discrimination, but in any case payment should be made immediately of the balance of monies due the municipality on the 100 per cent basis so that women and children do not starve.

I have the honor to be,

Sir,

Your obedient servant,

Reeve,

Corporation of the District of Maple Ridge

TELEPHONES:
Haney 6. Hammond 3661.

Port Haney, B. C.,
June 2nd, 1933.

Mr. Harrison,
Chief Accountant,
Public Works Dept.,
Parliament Bldgs.,
Victoria, B. C.

Dear Sir:

With reference to my conversation with you on Friday, May 26th, let me submit the following facts for your information:

Mr. E. E. Adair, Inspector of Relief Claims for this district of Maple Ridge, specifically advised the Municipal Council in January that no more than \$6 a month should be paid to each single man on relief. I, immediately, wrote and handed him a letter declaring that if the amount was to be strictly limited to that sum he had better arrange for the removal of all single, homeless men to the Camps. Mr. Adair consulted with Mr. C. Tubman, New Westminster, and as a result communicated to us an alteration of his first instruction and instructed us, on that occasion, to continue as we had been doing and pay \$10 a month to each homeless man. By homeless men is understood, men living in shacks and what is known as "batching".

Our Municipal accountant, in submitting to you his pay rolls, classified these "batching" men as municipal, single men. This was erroneous. They should have been classified as "homeless, single men" an important distinction. The other class to which the municipal, single men is applicable are single men living with parents or relatives, but on relief. Did we refuse to give this latter class relief, their parents or relatives would immediately eject them and they would be forced to seek shelter in shacks or other detached buildings, as the homeless class do.

What our accountant meant by transient, single men, was the floating population coming and going, without settled abode.

We have letters in our possession from both Mr. Tubman and Mr. Adair as government investigators instructing the council to give relief as already mentioned, viz.; \$10 a month, and at different times we were personally and collectively assured that the government would refund the full amounts paid. On one occasion the Investigator interviewed the council in session and ordered us, in no uncertain manner, but authoritatively, to administer such relief as narrated to single and transient or, he added, significantly, take the consequence. The consequence, we interpreted, was government compulsion.

Now in spite of letters and assurances of the investigators, we are threatened with a deduction of one-third of our relief donations and with reimbursement of only two-thirds of our outlays, instead of the one hundred per cent definitely stipulated and assured. With regard to single men under twenty-one years of age applying and certified for relief, we have the same definite instructions, in writing, and verbally, to pay them relief at the same rate.

Yours truly,
S. Mussallam

TO THE COUNCIL:

Re A. & L. Taxes in Arrears.

I have a report to make on the Abernethy Loughheed Logging Company's arrears of taxes owing on certain timber limits within our Municipality.

As most of you will remember, the method of recovery of these taxes, amounting to a considerable sum, caused some difference of opinion in the Council last year. I strongly advocated legal action under the Municipal Act. The Councillors differed with me and refused. While we remained inactive the Company, or its advisors, stole a march on us and in September, 1932 induced the Lands Department at Victoria, (without notice to our Municipality) to accept a release of certain logged off areas and making same retroactive as of May 1st, 1931. That, of course, meant we had no lands to revert to the Municipality for non-payment of taxes and only having a personal action to recover the amount of taxes, against the company.

That was the position of affairs as we found them in 1933. The present Council having a keener sense of responsibility, granted me permission to collect the arrears of taxes by all legitimate means. Accordingly, I instructed Mr. Harry G. Johnston, of New Westminster, early in the year, to take definite action and if necessary, institute legal proceedings, and in spite of the Company's attempt to evade its responsibility to pay the taxes, we did at length succeed in bringing them to the point-a settlement-a settlement when all things are considered, which must be conceded as being very satisfactory from our standpoint.

The prospect of recovering any money by suit looked gloomy and appeared hopeless. While negotiations were in progress, many trips and consultations with Mr. Johnston were necessary, both in Victoria and New Westminster, the result of the whole negotiations being, we secured the property opposite our Municipal Hall here, the former office of the Company and residence overhead. The title deeds are in our vault. The building cost, I am creditably informed, \$4,000.00 to build, so we are not so badly off. However, I cannot help reflecting that, had we adopted stern measures last year, this retroactive cancellation would never have been effected and the Municipality would have been a great deal more richly equipped with funds in 1932, a time when it needed them most.

We can sincerely congratulate ourselves on the settlement as it stands and we are greatly indebted to the able and persevering manner in which our Solicitor, Mr. Harry G. Johnston, conducted the, at times, baffling and perplexing negotiations.

Having examined the Municipal shed and contents of same we report as follows:

The Roof is leaking, there is no floor, no windows, and practically nothing to do anything with.

The shed is full of of disused machinery, a good deal of which is obsolete.

We suggest a portion be floored, and a bench set up and a small pit put in.

Also some socket wrenches, open spanners, a stilson wrench, a vice, and small emery wheel secured so that any light repairs may be done by the Truck drivers themselves thus doing away with the necessity of going to the garage for everything.

That no work be done at the garage's except at direct order of Councillor Burnet, and

That supplies for the trucks and grader be purchased locally at the regular trade discount.

That equipment not being used and out of date be sold if possible,

Reeve

Minutes of the Regular Meeting of April 3rd. 1937.

The Regular meeting of the Municipal Council was held in the Municipal Hall, Haney, B.C. at 10.30 A.M. on Saturday the 3rd. day of April, 1937, Present the Reeve and full Council.

Moved by Coun. Ansell seconded by Coun. Larson that the minutes of the regular meeting of March 6th, Special meetings of March 8th., 11th., and the 18th., be adopted. Carried.

The Reeve asked all persons to stand in silence for one minute ~~xi~~ in memory of the late W.H. MacKay.

T. Rock spoke to the Council, stating that the flood gate under the Hammond Cedar Planner Mill was not working and would allow the river to back up in the flood season.

Moved by Coun. Fairweather seconded by Coun. McIntosh that the attention of Mr. Dixon be drawn to the unsatisfactory condition of the gates from the ditch under the Hammond Mill (as reported by a delegation to the Council) and that he be asked to remedy same as soon as possible. Carried.

T. Rock also spoke as a delegate from the unemployed at Ward 1. and asked for an increase in the relief allowance, he was informed that it was more likely that the present scale of relief would be reduced not increased.

A letter from H. Menzies as agent for T. Davison re the lanes etc in Block 6 of D.L. 398, Map 155, was read and dealt with in the afternoon.

A letter from the School Board was read, asking the Council to withdraw their motion as to Arbitration under the Arbitration Act, this was discussed at length and Reeve Mussallem tabled the following letter in reference to the matter.

"A word of explanation seems necessary in striking the tax rate for the current year. It was the intention of the Council to have held the rate at last year's figure, or to have even reduced it, if it were found possible but this has been found impossible owing to the situation that has arisen in connection with the School Board matters. As is generally known, only a certain percentage of the taxes is received annually, and in providing for school estimates this fact has to be taken into consideration and a sufficient margin left to cover the school expenditure whatever the tax collection may be.

The Council refused to accept the School Board estimates for this year, considering the amount submitted to be excessive, and under the terms of the Municipal Act, decided to put the question to arbitration. After meetings with Chairman Hanson of the Board and other trustees it was arranged to appoint a local man to represent the Council and a local man to represent the School Board, with a judge or police magistrate as referee or third member of the arbitration board. It has since developed that the 1936 School Board actually purchased all requirements before the elections this year, and there is now nothing that can be done about it. In other words, the Municipality must pay the bill."

S. Mussallem.

Moved by Coun. Fairweather seconded by Coun. McIntosh that the Ordinary Estimates of Expenditure by School Board amounting to \$31,723.00 be approved and the rate be struck accordingly.

Coun. Ansell voting Nay.

Carried.

Moved by Coun. Ansell seconded by Coun. McIntosh that the Extraordinary estimates as presented to this Board by the Maple Ridge School Board be not approved. Carried.

TELEPHONES:  
HANEY 6      HAMMOND 3661

1937 Maple Ridge Council.

January 12th. 1938

Gentlemen:

With this meeting the 1937 Municipal Council becomes nothing but a memory. What it has done is recorded in the minutes, and in a few years' time will be regarded as history by the few who may be interested in the archives of Maple Ridge. Perhaps, once or twice in the next year or two reference may be made to the minutes of 1937, but after that there will be no general interest taken in them. But we, who have served during the past year, will remember, and I feel sure that the memory of 1937 will be a pleasant one. We have all carried out to the best of our abilities the responsibilities with which we were entrusted, and we have had a year of splendid co-operation in the interests of the municipality. We have nothing to reproach ourselves for, and the year's work has been one of the most progressive and satisfactory that I can remember.

As regards what has been done, I may mention to purchase of a 4394.00 grader. It was customary to spread the cost of such a machine over two years, but we are leaving no loads for the 1938 council to carry. We have attended to several bridges, replacing the Jackson road bridge by a fill, and rebuilding bridges on the Wilson and Bosomworth roads. We have laid a mile of hard-surfacing east of Webster's Corners, and have put down two miles of cut-back on the Lorne, the Lilloett, Best and Baker roads. I can say, without fear of contradiction, that we have the best roads of any municipality. To top all, we have finished the year with a good surplus, after taking good care of all our relief and municipal work and liabilities.

Gentlemen, without your very loyal co-operation and able assistance individually, such a fine record for 1937 could not possibly have been effected, and, as reeve of the municipality, I thank you one and all, and particularly do I thank you for your unflinching courtesy and understanding. I trust that 1938 will be another such year, for I am convinced that only by mutual understanding of each other's difficulties and sympathetic co-operation can the members of any council and board give the best measure of service to those, with whose business they are entrusted.

Gentlemen, I thank you.

## Minutes of Meeting of January 12-continued.-

A letter from the Government Agent regarding the case of Stinson being turned over as Maple Ridge responsibility, this was left in the hands of the Clerk to report, etc.

A letter from Reeve S. Mussallem to the Council was read.

Moved by Coun. McIntosh and Ansell: "At the close of another year, we would like to put on record our appreciation of the services rendered the municipality by the Vancouver Daily Province during the year, and with it, special appreciation of its representative, Mr. Harbord-Harbord, who has never failed to do everything in his power for Maple Ridge and its institutions. With a very thorough knowledge of municipal affairs, his reports have always been both fair and correct, and his knowledge of the farmers' problems in all branches of agriculture places him in a class by himself among British Columbia writers. He has been at our beck and call at all times, and we especially appreciate this, knowing the vast area he has to serve and the strain of keeping always up to date with the various activities of so many municipalities. His weekly column has been, as usual, one of the most attractive features of the paper, bringing, as it does, the city and country together, and presenting our problems in language that is easily understandable.

Copy of this resolution to be forwarded to the Daily Province.  
CARRIED.

A comment was made to convey the same appreciation to the local press for their activities of 1937.

Moved by Coun. McIntosh and Ansell: That Councillor McIntosh be allowed to purchase 400- 10" tile . CARRIED.

Coun. Fairweather voted nay on this motion on the principal that this Council should not vote capital expenditure concerning the 1938 Council.
