To: The Municipal Councillors of Maple Ridge

Gentlemen:-

At this, the inaugural meeting of our Council for 1950 term, I wish to express to you my congratulations at your having been given a further mandate by our citizens at the recent elections. Two of your number were rewarded for the merits of your services in the past, while the new addition to our membership was given a splendid endorsement at the polls and we welcome him among us. I am sure the continuing councillors with a further term to serve, will join me in these felicitations

It is now my duty and responsibility, according to the power granted me by the Municipal Act (Sec. 27, Clause C. Chapter 232) to appoint such members of this Council as I may deem proper, to be standing committees for the ensuing year" but the proceedings of all such Committees "As especially stipulated in the said Section" shall be subject to the approval of the Council, and no debt may be contracted or money expended, by any committee in excess of fifty dollars at a time, unless first sanctioned by the Council".

Most of you will recall that during the electoral term of 1949 certain expenditures were either made or contracted for without the authority of the Council, as a whole, and this led to commitments being made, which exceeded our budgetary allowances. While I do not feel that such over-spending was entirely irregular, insofar as value being received for same, I must insist that no excesses of expenditures over estimates shall be countenanced in the year just opening. My personal opinion is that if any committee fail to observe these regulations, the members of such committee are jointly and individually responsible for such excess expenditures. With this firm understanding at the start, I am sure we will discharge the duties of our respective offices to the entire satisfaction of those who placed us here.

I must further add an expression of my gratitude to those

The Water Works Committee reported that in their opinion there was sufficient users of water to warrant an extension east of the tank although in the opinion of the engineer the average pressure would be 10 lb. less than good minimum. The owners had met the Committee and were willing to donate a certain share of the cost. The Council considered the report and felt that the Municipality might be letting themselves in for something. REEVE

 CLERK

A meeting was held in the Municipal Hall, Haney, B. C. on Thursday, October 26th, 1950 at 9:30 a.m. with the following being present: Councillors Wm. Fairweather, W.L.B. Clappison and John Larson and Inspector Lee and Staff-Sergeant Paton of the R.C.M.P. for the purpose of being advised as to the 1951 policing contract and its conditions.

In the absence of the Reeve, Councillor Fairweather took the chair.

Inspector Lee advised that they considered \$3500.00 per year to be the cost of one constable under the R.C.M.P. The Federal Government share to be 60% and the Corporation 40%.

Under the R.C.M.P. contract any police costs which may be collected under convictions made under the criminal code of Canada, the Federal Statutes, Provincial Statutes or any Municipal Bylaw would belong to the R.C.M.P., and by them would be deposited into a trust fund. This did not effect any fine, fees or forfeitures as formerly, which would be turned over to the Municipal Corporation as part of their revenue.

The R.C.M.P. forces would not collect municipal taxes nor impound dogs, cattle etc, nor would they be responsible for health or sanitation but they would carry out the enforcement of Municipal Bylaws and furthermore would issue all summonses, prosecutions on information laid by the proper authorities.

Any increase or decrease in strength of the local force could be requested at any time with one month's notice in writing. All increases or decreases would be rated at the normal rate of \$1400.00 per annum, but the Commissioner would reserve the right to deny any increase or decrease as he saw fit.

Inspector Lee complimented the Council on their very satisfactory police station and therefore did not enter into any negotiations regarding same.

The Municipality would be required to supply free of charge all office accommodation, equipment, telephone, fuel and light. In regard to the telephone the Municipality would be obligated to pay installation and rental only. All toll charges would be the charge of the R.C.M.P.

The Municipality would be responsible for all expenses in connection with prisoners including maintenance and medical while in custody up till the time of conviction or release. Also the cost of doctors if the Constable in charge considered it necessary, and furthermore, in the necessity of the use of an ambulance it would be the full cost to the Municipality. As in the past the responsibility of cost of the police magistrate and any police court officials or solicitors that might be required would be that of the Municipality. Prosecutions would be carried out in a similar manner as in the past and only in cases of necessity would a lawyer be needed. The R.C.M.P. requires that a guard should be on duty at all times when a prisoner is in the cell. This guard would be a charge of the Municipality. In the case of female prisoners a full time matron would have to be on hand at a cost also to the Corporation.

Room accommodation for all unmarried or single personal engaged in the police force must be supplied by the Corporation at their own expense but the inspector informed the committee that their usual procedure is not to have more than 50% married personal at any time on their force.

Meeting with R.C.M.P. Continued

The contracted number of men on the force would not be replaced with any additional men when the men are on leave or on sickness unless of an unusual length of period. The annual leave worked out on the basis of 18 working days per year. The local force will at all times work under direct supervision of the Municipal Council with the Chief Magistrate being the instructing party.

Detailed monthly reports would be turned in and due to the confidential nature of a considerable amount of their report, these were not to be turned over to the press but were to be filed as confidential.

The Dominion Government will not be responsible for any damages caused by any riots or insurrection etc.

The Municipal Council ~~xxxxxxxxxxxx~~ if it considered it to be in the public interest may request the removal of any member of the force by writing to the Officer Commanding, R.C.M.P. E. Division, Victoria, B. C., clearly outlining the reason for such removal.

The usual ~~period~~ of a contract was from one to three years, but the next contract would only be for one year and the said contract may be terminated at any time by either party with six months written notice.

The Attorney-General of the Province of B. C. could if he saw fit to do so take over and conduct a prosecution laid or made under any statutes.

The R.C.M.P. force would not accept guard duty on any mental patient unless ~~and~~ a warrant of committal has been made. This did not mean one of violent nature picked up on the streets but it referred more to the case of a mental patient in a hospital.

The R.C.M.P. considered as a yard basis that they needed one man for every 1000 population, however in determining the said yard stick, they considered the density of population in the area to be covered and the ~~past~~ crime incidence, and in the case of Maple Ridge, the Inspector was recommending a minimum of five men.

The Inspector advised that the average total mileage ^{per day} over the past two years or more was 104 miles. Their charge for maintenance was 9¢ per mile. The Council could accept this or provide transportation in lieu of this charge. It was his considered opinion that one car was all that was required for the Maple Ridge detachment.

The inspector stated that the foregoing were main basis of the contract and that we could agree as to the payments whether quarterly, half-yearly or otherwise, and that the contract would be shortly made out and sent to the Corporation for the signature of the Reeve. The 1951 contract would be between the Federal Department of Justice, the Attorney-General of B.C and the Municipality represented by the Reeve.
The meeting adjourned at 11:00 a.m.

Mr. A. Laity was present regarding the drainage of the old Dewdney Trunk Road. Councillor Fairweather stated that they had a quotation for putting in this ditch of between \$1000 and \$1200 with the culverts to be put in by the Municipality extra. It was decided that nothing would be done in this regard until the levels had been taken by Mr. King.

Mr. Ronald Kendrick spoke to the Council regarding flooding in front of his place on 5th Ave and stated that the new drain recently put in would add to this condition. The Foreman was to be instructed to keep track of this condition during the next rain and to ascertain the adequacy of the present culvert.

The Clerk reported that the boom in the Alouette Lake holding the floating refuse had broken during the last heavy rains and consequently many of the logs and debris had been deposited in the Alouette River bed. This could cause damage to our bridges at another freshet. He also informed the Council that it was his understanding that the B. C. Electric would be reclaiming this refuse from the river bed by donkey.

Councillor Pattern reported that Mr. Langton on the River Road requested his culvert to be cleaned out as it was blocked. The Foreman was to attend to this and also to clean out the ditch on the north side from Cunningham's place to 4th Ave.

Councillor Pattern also stated that Mr. Lindblad wanted some gravel on his crossing. This was not authorized.

A report by the Foreman regarding the cost of a 20 in. concrete or McPherson wood stave pipe ~~from through the~~ through Mr. Stanyers property on Selkirk Street and the lane would entail a cost of between \$400 and \$500 for pipe plus the cost of two manholes and the labour. No action was ordered at this meeting.

The meeting adjourned at 12:00 oclock noon.
