

Date: \_\_\_\_\_

Developer: \_\_\_\_\_ Subdivision no.: \_\_\_\_\_

Legal description: Lots \_\_\_\_\_ to \_\_\_\_\_ Plan no.: \_\_\_\_\_

I \_\_\_\_\_ the civil engineer of record verify that the on-lot infiltrators, as shown on the approved stormwater management plan dated \_\_\_\_\_ (which has been registered on title of the property), have been constructed and completed by the developer in general accordance with the details shown on the approved stormwater management plan. Also, I confirm the on-lot infiltrators have been built to good engineering standards under my supervision and inspection(s). Further, the on-lot infiltrators meet all requirements, including the 2018 British Columbia Building Code, the on-lot infiltrations systems requirements (Bulletin 2012-01), and applicable City bylaws (e.g., Watercourse Protection Bylaw).

In addition, I am satisfied that the current installation of the on-lot infiltrators, including the location(s) of infiltrators, will not have a negative impact on house construction, adjoining lots, and buildings.

On-lot infiltrators type:  Rock pit       Infiltration trench  
 Stormtech       Other: \_\_\_\_\_

Dated at Maple Ridge, BC, this \_\_\_\_\_ day of \_\_\_\_\_, 20 \_\_\_\_\_

The civil engineer, \_\_\_\_\_

of \_\_\_\_\_
